LINCOLN GUARDS RIGHT IN LINE

Forty Enthusiastic Colored Men Will Soon Be Well Drilled—Where Coxy Stands. Gold Buttons For Bryan's Home—Political Points.

Two Republican clubs held meetings last night, and continued preparations for the active part they will take in the campaign.

After the McKinley club had disposed of a vast amount of routine business and chosen a board of seven trustees, the question of attending the campaign opening in Canton next Friday, was broached. There will be thousands present, and Senator Thurston will help Major McKinley and other noted speakers spread Republican doctrine. The club thought it best to place the matter in the hands of the central committee, and if a good rate can be secured a large crowd will go from this city. The sentiment is in favor of attending the meeting, and the size of the crowd depends on the rate.

The Lincoln guards added seven members to the club last night, and it now numbers 40. Uniforms will be secured as soon as possible, and a committee was appointed to rent a room at once. When this is secured the club will drill three nights each week until it will yield the palm to no marching organization in this part of the state. A glee club will also be organized, and will make a specialty of campaign music.

THE ELECTORAL VOTE.

It Is Given by States For Those Who Want to Calculate.

What follows is the total electoral vote by states. It is given in answer to many inquiries:

Alabama.....	11	Nebraska.....	8
Arkansas.....	8	Nevada.....	3
California.....	9	New Hampshire..	4
Colorado.....	8	New Jersey.....	10
Connecticut.....	8	New York.....	36
Delaware.....	8	North Carolina..	11
Florida.....	8	North Dakota....	3
Georgia.....	13	Ohio.....	23
Idaho.....	3	Oregon.....	4
Illinois.....	24	Pennsylvania....	32
Indiana.....	15	Rhode Island....	4
Iowa.....	13	South Carolina..	9
Kansas.....	10	South Dakota....	4
Kentucky.....	13	Tennessee.....	12
Louisiana.....	8	Texas.....	15
Maine.....	6	Utah.....	3
Maryland.....	8	Vermont.....	3
Massachusetts..	15	Virginia.....	12
Michigan.....	14	Washington.....	4
Minnesota.....	9	West Virginia...	6
Mississippi.....	9	Wisconsin.....	12
Missouri.....	17	Wyoming.....	8
Montana.....	8		

The total is 447, and 224 are required to elect the next president.

THE ONLY CANDIDATE.

Coxy Claims Sherwood Must Get Out of the Way

J. S. Coxy and Carl Browne unite in saying that the published reports of the two congressional conventions at Alliance are inaccurate. Mr. Coxy says that he was nominated in a perfectly regular manner and that he proposes to hold on to the nomination, let come what will. He concedes with three candidates in the field, the re-election of Congressman Taylor is assured, but better this than a Democratic nominee, like General Sherwood be permitted to win a victory by sharp practice. Mr. Coxy claims that the forty delegates who bolted from the Democratic convention, as soon as it was seen that Sherwood would win, are all for him, and powerful influences are at work to induce Sherwood to withdraw, thus permitting Coxy to go it alone.

A MAN OF MANY VIEWS.

General Sherwood Has Been In Any Number of Parties.

General Sherwood, who was nominated by the Alliance convention, has been in many political parties. When a Republican he was elected to congress from the Toledo district, and served one term as secretary of state. Then he became a Greenbacker, and by a narrow margin was made probate judge of Lucas county. Not satisfied with one flop, he went over to the Democrats, and won some notice as the editor of a paper of that faith in Canton. Last spring he developed a desire to organize silver clubs, and has since been roaming about the district preaching that doctrine. He was rewarded for the service by the solid Populistic vote at Alliance, and can now be classed as flopping again.

A LANDSLIDE.

New York, Pennsylvania and Ohio Are All Right.

One of the most prominent business men of the city has just returned from a trip which took him through New York,

Pennsylvania and Ohio, and if he had any doubt of the result of the election before he is convinced now.

"It will be the greatest political landslide the country ever saw," he said today. "You hear nothing but McKinley wherever you go. Bryan is not to be thought of. The people of the states I visited do not want him. The Democrats cannot carry Ohio, and the other states are equally as solid for McKinley."

IN DEMOCRACY'S STRONGHOLD.

D. J. Smith Had a Big Meeting In Clarington.

D. J. Smith is home from Clarington, where he made a speech on Wednesday night. It is a Democratic stronghold, but the hall was crowded, and a number of Democrats decided to vote for McKinley.

A great crowd attended the meeting conducted by the Acheson club at Congo, last night. Speeches were made by Mr. Marshall, D. J. Smith and Mr. Robertson, and the enthusiasm was at a high pitch. A number from this city and the country across the river attended.

GOLD BUGS FOR LINCOLN.

There Are Republicans In Mr. Bryan's Home Town.

Not long ago the Union pottery began making a very pretty campaign button. It was of porcelain with a bright gold bug in the center. Samples were given the salesmen and they sold well, but there was astonishment in the office when the mail was opened the other morning, and found to contain an order for a large number of gold bug buttons for a dealer in Lincoln, Neb. That place, it will be readily remembered, is the home of Mr. Bryan, Democratic candidate.

KING IS COMING.

The Youngstown Orator Will Be Here Next Week.

Judge L. W. King, of Youngstown, will open the campaign in this city next Wednesday evening. The appointment was made by the state committee, and the gentleman last night wired to leaders in this city that he had no conflicting engagements. The central committee will make all the arrangements at the meeting tonight. Judge King has many personal friends here, and will be greeted by a big crowd.

A LONG WALTZ.

It Extended Through More Than Two Hours and a Half.

A reception given at Bradshaw hall last evening was largely attended, and a great deal of interest was manifested in the continuous prize waltz. The waltz was commenced at 10 o'clock, and the judges explained that the couple would have to dance on their toes and not reverse. Joseph Cassidy and Miss Lilly Myler and Harry Eberts and Miss Willson waltzed for 2 hours and 40 minutes, when the prizes were awarded to Miss Myler and Mr. Cassidy.

SHOT IN THE LEG.

Sharp Says One of Earl's Bullets Found Him.

When Officer Earl fired at the fleeing form of James Sharp, Wednesday night, his aim was not as bad as many believed. Sharp took refuge in a second street building, and yesterday showed the employees of a blacksmith shop nearby a flesh wound in his leg near the knee. He claimed that he was hit by a bullet as he ran into the alley between Second and Third streets. The irrepressible James is still a fugitive from justice.

FOR THE HOSPITAL.

The Mass Meeting Will Be Held at the Grand Sept. 24.

The Hospital association met last evening, with a good attendance, and fixed Thursday, Sept. 24, as the time for holding the mass meeting at the Grand Opera House. An invitation committee was appointed, and Col. H. R. Hill will act as the presiding officer. Miss E. P. Hazlett and Mrs. Monroe Patterson were appointed to inspect the hospitals at Youngstown, and will make their report at the mass meeting.

IN THE NIGHT

Someone Robbed Charles Fowler of a Set of Harness.

Charles Fowler, of Sixth street, is poorer by one set of harness. The stable in the rear of Fowler's place of business was allowed to remain open last night, and someone entering the place walked away with the harness. Fred Martin rooms near the stable, and heard voices there before dawn. He thought the parties were plain drunks in the alley. The police have been notified.

Knew Him In Pittsburg.

The Pittsburg Dispatch of today says: "Jim Dunkerly, the old time wrestler of this city, won the fat men's race at East Liverpool Monday, winning the 100 yards in 13 1/4 seconds."

THE SOUTH PROTESTS

Christian Endeavorers Want Some Recognition.

THE NORTH CONTROLS IT ALL

Officers Always Chosen From That Part of the County, and No General Meetings Held Here—A Vigorous Objection Made a Slight Change.

The county Christian Endeavor convention last night concluded its business at Leetonia, but not before a protest had been registered from East Liverpool on behalf of the south.

It has for some time been the policy of the north to control not only the place for the annual meeting, but to select all officers without regard to any claim that might be held by the southern end of the county. Last year the convention was held in Lisbon and this year at Leetonia. A minister from the county seat was the president, and will hold the office for another year. The program carried out at the convention was made up in the main of people from the north, Salineville and Wellsville being the only societies from this section recognized, and they with a single number each. All officers elected last year were from the northern section, and the same plan was carried out yesterday unless an honorary position conferred upon East Liverpool can be counted as an exception.

The story of the convention is interesting. F. H. Croxall, an enthusiastic Endeavorer and president of the society connected with the First Presbyterian church, was present. He learned that the nominating committee had been appointed before the majority of delegates had arrived, and had prepared a list of officers with the chairman of the committee as a candidate for treasurer, he having held that office one year. Mr. Croxall protested vigorously in behalf of the southern section, and although his protest was made fully 30 hours before the election no effort was made to break the slate. The president took it upon himself to make one change, and announced that he had added a lady from East Liverpool as superintendent of the Juniors, the regular candidate for that office being allowed to remain on the ticket. Mr. Croxall's protest was based on the ground that the 600 Endeavorers of this section, of which East Liverpool has over 400, should receive some recognition, and this log rolling in a meeting such as the convention should be was wrong.

The election of officers shows how well the plan to keep control of the society in the hands of the north was carried out. It resulted as follows: President, Rev. J. P. Anderson, Lisbon; vice president, Miss Mary Young, Salem; recording secretary, Miss Clara Zinn; Leetonia; corresponding secretary, A. W. Morris, Lisbon; treasurer, S. S. Weaver, Columbiana; superintendents of juniors, Miss Bixler, Leetonia, and Miss Jackman, East Liverpool.

It was also decided to hold the next convention at Salem, no disposition being made on the part of the officers to honor the river townships with the convention. Endeavorers in this city believe they are not being accorded fair treatment, and to Mr. Croxall's protest will be added the protest of other leaders in the movement.

A FEW TRANSACTIONS.

Real Estate Is Moving a Little Faster Just Now.

LISBON, Sept. 11.—(Special.)—Recorder Lease has received for record the following transactions in real estate from the southern part of the county:

D. W. Smith to David Watson, lot in Gardendale, \$800; W. F. Dixon to R. A. Ramsey, lot in East End, \$100; W. S. Smith to J. T. Smith, land on Market street, East Liverpool, \$2,500; J. W. Dennis to F. C. Norris, land in Yellow Creek, \$3,400; E. Vanfossen to Jane McLaughlin, land in Madison, \$325; J. H. Aten to Barbara Himes, lot in Wellsville, \$200.

A marriage license was this morning issued to J. H. Whittenberger and Villa M. Bushong.

READY FOR THE GAME.

Football Players Are Practicing Every Day.

The Rovers will hold a meeting at the Young Men's Christian association rooms, Saturday evening, for the purpose of completing all arrangements for purchasing uniforms.

Coach Echols, who has been engaged by the Eclipse football team, will arrive in the city Monday morning, and will immediately assume full charge. E. L. Brown, of Braddock, will be here next Wednesday to play the season with the

Eclipse club. An effort is being made to secure ground upon which an electric light shines so that practice may be had late in the evening.

The Diamonds and Stars play ball at West End park Saturday, and will line up as follows:

Diamonds	Positions	Stars
Baxter.....	catcher.....	Davis
Webber.....	pitcher.....	H. McCurran
Headley.....	short.....	McNicol
Gallagher.....	first.....	Frey
Kennedy.....	second.....	McCullough
Godwin.....	third.....	Clarke
Albright.....	left.....	McCurran
Callahan.....	middle.....	Davis
Fitzgerald.....	right.....	Appell

GRAND PRESS WORK.

That Done at the Review Office Is Unequaled.

The fine press work executed in the job department of the NEWS REVIEW office is the subject of warm commendation by competent judges, and patrons are loud in their praise of it. In the first place, the REVIEW employs workmen of rare skill and experience. In the second place, we point with pride to the undeniable fact that the "Campbell Pony Century" press is the finest piece of machinery in this line now on the market, distancing all rivals and casting them into the background. That this is a fact, is evinced in the challenge which the Campbell Printing Press & Manufacturing company casts into the teeth of all wouldbe competitors. To the practical printer, the "Campbell Century" is a "thing of beauty and a joy forever."

The NEWS REVIEW office is fully prepared to turn out anything in the line of printing, from the common hand bill or circular, to the very finest price lists or color work put upon the market, also embracing the most beautiful embossed work.

Prices on all job work have lately been reduced at this office, in accord with the stringency of the times, and if you desire first-class work, guaranteed in every particular, at reasonable figures, it will pay you to give the NEWS REVIEW office a call.

GOING TO TOLEDO.

Rev. C. W. Huffer Has Accepted a Call to the North.

Rev. C. W. Huffer has received a call from the Christian church at Toledo. He has decided to accept, and will leave in two weeks to assume control of his new charge. Next Friday evening the members of the congregation will tender their pastor and his family a farewell reception. The ministerial work of Reverend Huffer in this city has been characterized by pronounced success, and general regret is expressed that he is going to relinquish his pastorate here.

THREE BOATS.

The Pittsburg-Cincinnati Line Will Be Ready For Water.

There is nothing doing along the Ohio, and rivermen are patiently waiting for another boating stage. The Pittsburg-Cincinnati company will be ready when water comes with three boats. The Hudson is being repainted and refitted, and will look like a new boat when again put in the trade. The company may have another new boat next year, and if the stage of water will allow it four packets will take care of the business on this end of the river.

SERIOUSLY ILL.

Mrs. House Was Poisoned While Canning Fruit.

Mrs. House is confined to her home on Fifth street suffering from the effects of poison. She was engaged in canning tomatoes when her face and neck began to swell, and in a short time she was very ill. The affection spread, and it was not long until her eyes were swollen shut. At present it is impossible for her to see, and she suffers a great deal. The lady's condition has become so serious that a consultation of physicians will be held.

A BIG DAY.

Two Dozen Cars of Ware Sent Out Yesterday.

Yesterday was a record breaker at the shipping platform of the freight depot, the employees loading 24 cars with ware. This is the largest output for any one day for more than a year. Business has increased to such an extent lately that it was necessary to add another man to the force.

A Rock Spring Picnic.

Mrs. Thomas B. Anderson, of East End, is entertaining friends at Rock Spring this afternoon in honor of her guest, Joseph Crawford.

JOHN NEIL WAS GONE

When Officer Jennings Went to Arrest Him.

MRS. NEIL OPPOSED TO WHIPPINGS

When She Is Made the Victim—The Heartless Culpit Arrested Last Night—Constable Bertele Got a Plain Drunk—Hubbard Bound Over.

Another wife beater slept behind the bars at city hall last night, and if he is found guilty he will likely get a salty dose.

Mrs. John Neil, who resides in an alley between Second street and the railroad, made the complaint. She appeared at city hall yesterday evening, but Mayor Gilbert was out of the city and the warrant could not be made out. She told a pitiful story of treatment at the hands of her husband. He had come home very drunk, she said, and had abused herself and children in a shameful manner. She was directed to Squire Morley, and a warrant was issued. Meanwhile Officer Jennings had gone to Neil's house, and was about to take the man in custody when Neil demanded to see the warrant. As the officer had neglected to bring that useful document he could not take the man. He returned to Squire Morley, got the warrant, and then went after Neil, but he had fled. Later the man was arrested and locked up.

Constable Bertele this morning arrested a man who gave the name of Dad Ward. He was very drunk when the constable found him on a Third street doorstep. A neighbor asked that the man be allowed to go home, but the officer was firm. Ward was locked up, and will be heard later. The man is a veteran of the late war, and having been paid his pension proceeded to celebrate.

William Hubbard, a boy employed at Cartwright's pottery, was given a hearing this afternoon on a charged of larceny.

He is accused of stealing the 130-pound cash register from a Sixth street restaurant last Sunday morning. Robert Deidrick testified that he was employed at the place at night, and early Sunday was called to the rear door. A young man wanted to buy some whisky, and while he was talking to him a man entered the front of the store. He picked up the register and ran out. Deidrick caught up his revolver, and going to the door saw two men running. He fired one shot. The register was found on the pavement unopened. He stated repeatedly that Hubbard was the man. James Mullen gave some unimportant testimony, and Hubbard was bound to court in \$200 bond. Efforts were made to secure bail.

FOR THE PRESENT

Miss Ina Wells Will Have Charge of the Library.

The directors of the library met last evening, and after making all preliminary arrangements decided to open the library to the public next Monday afternoon at 1 o'clock. The subject of a librarian was discussed, but no decision reached, and Miss Ina Wells will remain in charge until a selection is made. There are 500 new books catalogued and in the cases at present, and over 100 are yet to arrive.

AFTER GAS.

The Lisbon Tin Mill People Want the Williams Well.

S. C. Williams & Co., have received a very flattering offer from the Lisbon tin mill company to pipe their large gas of the Alum Cliff farm to that city to furnish the mill with fuel. The matter has not as yet been definitely settled, and the proposition will be thoroughly considered before anything is done.

AN IMPORTANT MEETING.

Directors of the Association Are In Session Today.

The directors of the Young Men's Christian association are in session this afternoon, and are transacting important business. Mr. Pierce, state secretary, is present, and is aiding the officers in the work they have on hand. Mr. Pierce arrived in town at noon, and will leave as soon as the work is completed.

Homeward Bound.

Harry Greenwood and wife, Mrs. Farrell, Mrs. Turner, Mrs. Harley and Edwin Hancock, the parties who have been visiting friends in England for the past two months, will leave Liverpool tomorrow morning on the steamer Lucania for New York.

—Reverend Huffer is visiting in Steubenville today.

THE SOUTH PROTESTS

Christian Endeavorers Want Some Recognition.

THE NORTH CONTROLS IT ALL

Officers Always Chosen From That Part of the County, and No General Meetings Held Here—A Vigorous Objection Made a Slight Change.

The county Christian Endeavor convention last night concluded its business at Leetonia, but not before a protest had been registered from East Liverpool on behalf of the south.

It has for some time been the policy of the north to control not only the place for the annual meeting, but to select all officers without regard to any claim that might be held by the southern end of the county. Last year the convention was held in Lisbon and this year at Leetonia. A minister from the county seat was the president, and will hold the office for another year. The program carried out at the convention was made up in the main of people from the north, Salineville and Wellsville being the only societies from this section recognized, and they with a single number each. All officers elected last year were from the northern section, and the same plan was carried out yesterday unless an honorary position conferred upon East Liverpool can be counted as an exception.

The story of the convention is interesting. F. H. Croxall, an enthusiastic Endeavorer and president of the society connected with the First Presbyterian church, was present. He learned that the nominating committee had been appointed before the majority of delegates had arrived, and had prepared a list of officers with the chairman of the committee as a candidate for treasurer, he having held that office one year. Mr. Croxall protested vigorously in behalf of the southern section, and although his protest was made fully 20 hours before the election no effort was made to break the slate. The president took it upon himself to make one change, and announced that he had added a lady from East Liverpool as superintendent of the Juniors, the regular candidate for that office being allowed to remain on the ticket. Mr. Croxall's protest was based on the ground that the 600 Endeavorers of this section, of which East Liverpool has over 400, should receive some recognition, and this log rolling in a meeting such as the convention should be wrong.

The election of officers shows how well the plan to keep control of the society in the hands of the north was carried out. It resulted as follows: President, Rev. J. P. Anderson, Lisbon; vice president, Miss Mary Young, Salem; recording secretary, Miss Clara Zinn; Leetonia; corresponding secretary, A. W. Morris, Lisbon; treasurer, S. S. Weaver, Columbiana; superintendents of juniors, Miss Bixler, Leetonia, and Miss Jackson, East Liverpool.

It was also decided to hold the next convention at Salem, no disposition being made on the part of the officers to honor the river townships with the convention. Endeavorers in this city believe they are not being accorded fair treatment, and to Mr. Croxall's protest will be added the protest of other leaders in the movement.

A FEW TRANSACTIONS.

Real Estate Is Moving a Little Faster Just Now.

LISBON, Sept. 11.—(Special.)—Recorder Lease has received for record the following transactions in real estate from the southern part of the county:

D. W. Smith to David Watson, lot in Gardendale, \$800; W. F. Dixon to R. A. Ramsey, lot in East End, \$100; W. S. Smith to J. T. Smith, land on Market street, East Liverpool, \$2,500; J. W. Dennis to F. C. Norris, land in Yellow Creek, \$3,400; E. Vanfossen to Jane McLaughlin, land in Madison, \$325; J. H. Aten to Barbara Himes, lot in Wellsville, \$300.

A marriage license was this morning issued to J. H. Whittenberger and Villa M. Bushong.

READY FOR THE GAME.

Football Players Are Practicing Every Day.

The Rovers will hold a meeting at the Young Men's Christian association rooms, Saturday evening, for the purpose of completing all arrangements for purchasing uniforms.

Coach Echols, who has been engaged by the Eclipse football team, will arrive in the city Monday morning, and will immediately assume full charge. E. L. Brown, of Braddock, will be here next Wednesday to play the season with the

Eclipse club. An effort is being made to secure ground upon which an electric light shines so that practice may be had late in the evening.

The Diamonds and Stars play ball at West End park Saturday, and will line up as follows:

Diamonds	Positions	Stars
Baxter	catcher	Davis
Webber	pitcher	H. McCurran
Headley	short	Nicol
Gallagher	first	Froy
Kennedy	second	McCullough
Godwin	third	Clarke
Albright	left	McCurran
Callahan	middle	Davis
Fitzgerald	right	Appell

GRAND PRESS WORK.

That Done at the Review Office Is Unequaled.

The fine press work executed in the job department of the NEWS REVIEW office is the subject of warm commendation by competent judges, and patrons are loud in their praise of it. In the first place, the REVIEW employs workmen of rare skill and experience. In the second place, we point with pride to the undeniable fact that the "Campbell Pony Century" press is the finest piece of machinery in this line now on the market, distancing all rivals and casting them into the background. That this is a fact, is evinced in the challenge which the Campbell Printing Press & Manufacturing company casts into the teeth of all wouldbe competitors. To the practical printer, the "Campbell Century" is a "thing of beauty and a joy forever."

The NEWS REVIEW office is fully prepared to turn out anything in the line of printing, from the common hand bill or circular, to the very finest price lists or color work put upon the market, also embracing the most beautiful embossed work.

Prices on all job work have lately been reduced at this office, in accord with the stringency of the times, and if you desire first-class work, guaranteed in every particular, at reasonable figures, it will pay you to give the NEWS REVIEW office a call.

GOING TO TOLEDO.

Rev. C. W. Huffer Has Accepted a Call to the North.

Rev. C. W. Huffer has received a call from the Christian church at Toledo. He has decided to accept, and will leave in two weeks to assume control of his new charge. Next Friday evening the members of the congregation will tender their pastor and his family a farewell reception. The ministerial work of Reverend Huffer in this city has been characterized by pronounced success, and general regret is expressed that he is going to relinquish his pastorate here.

THREE BOATS.

The Pittsburgh-Cincinnati Line Will Be Ready For Water.

There is nothing doing along the Ohio, and rivermen are patiently waiting for another boating stage. The Pittsburgh-Cincinnati company will be ready when water comes with three boats. The Hudson is being repainted and refitted, and will look like a new boat when again put in the trade. The company may have another new boat next year, and if the stage of water will allow it four packets will take care of the business on this end of the river.

SERIOUSLY ILL.

Mrs. House Was Poisoned While Canning Fruit.

Mrs. House is confined to her home on Fifth street suffering from the effects of poison. She was engaged in canning tomatoes when her face and neck began to swell, and in a short time she was very ill. The affection spread, and it was not long until her eyes were swollen shut. At present it is impossible for her to see, and she suffers a great deal. The lady's condition has become so serious that a consultation of physicians will be held.

A BIG DAY.

Two Dozen Cars of Ware Sent Out Yesterday.

Yesterday was a record breaker at the shipping platform of the freight depot, the employees loading 24 cars with ware. This is the largest output for any one day for more than a year. Business has increased to such an extent lately that it was necessary to add another man to the force.

A Rock Spring Picnic.

Mrs. Thomas B. Anderson, of East End, is entertaining friends at Rock Spring this afternoon in honor of her guest, Joseph Crawford.

JOHN NEIL WAS GONE

When Officer Jennings Went to Arrest Him.

MRS. NEIL OPPOSED TO WHIPPINGS

When She Is Made the Victim—The Heartless Culpit Arrested Last Night—Constable Bertele Got a Plain Drunk—Hubbard Bound Over.

Another wife beater slept behind the bars at city hall last night, and if he is found guilty he will likely get a salty dose.

Mrs. John Neil, who resides in an alley between Second street and the railroad, made the complaint. She appeared at city hall yesterday evening, but Mayor Gilbert was out of the city and the warrant could not be made out. She told a pitiful story of treatment at the hands of her husband. He had come home very drunk, she said, and had abused herself and children in a shameful manner. She was directed to Squire Morley, and a warrant was issued. Meanwhile Officer Jennings had gone to Neil's house, and was about to take the man in custody when Neil demanded to see the warrant. As the officer had neglected to bring that useful document he could not take the man. He returned to Squire Morley, got the warrant, and then went after Neil, but he had fled. Later the man was arrested and locked up.

Constable Bertele this morning arrested a man who gave the name of Dad Ward. He was very drunk when the constable found him on a Third street doorstep. A neighbor asked that the man be allowed to go home, but the officer was firm. Ward was locked up, and will be heard later. The man is a veteran of the late war, and having been paid his pension proceeded to celebrate.

William Hubbard, a boy employed at Cartwright's pottery, was given a hearing this afternoon on a charged of larceny.

He is accused of stealing the 130-pound cash register from a Sixth street restaurant last Sunday morning. Robert Deidrick testified that he was employed at the place at night, and early Sunday was called to the rear door. A young man wanted to buy some whisky, and while he was talking to him a man entered the front of the store. He picked up the register and ran out. Deidrick caught up his revolver, and going to the door saw two men running. He fired one shot. The register was found on the pavement unopened. He stated repeatedly that Hubbard was the man. James Mullen gave some unimportant testimony, and Hubbard was bound to court in \$300 bond. Efforts were made to secure bail.

FOR THE PRESENT

Miss Ina Wells Will Have Charge of the Library.

The directors of the library met last evening, and after making all preliminary arrangements decided to open the library to the public next Monday afternoon at 1 o'clock. The subject of a librarian was discussed, but no decision reached, and Miss Ina Wells will remain in charge until a selection is made. There are 500 new books catalogued and in the cases at present, and over 100 are yet to arrive.

AFTER GAS.

The Lisbon Tin Mill People Want the Williams Well.

S. C. Williams & Co., have received a very flattering offer from the Lisbon tin mill company to pipe their large gas of the Alum Cliff farm to that city to furnish the mill with fuel. The matter has not as yet been definitely settled, and the proposition will be thoroughly considered before anything is done.

AN IMPORTANT MEETING.

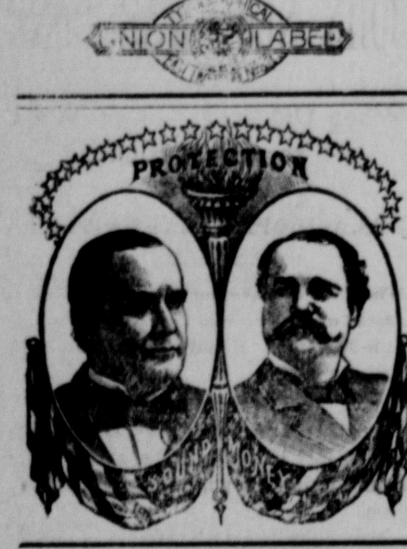

Directors of the Association Are In Session Today.

The directors of the Young Men's Christian association are in session this afternoon, and are transacting important business. Mr. Pierce, state secretary, is present, and is aiding the officers in the work they have on hand. Mr. Pierce arrived in town at noon, and will leave as soon as the work is completed.

Homeward Bound.

Harry Greenwood and wife, Mrs. Farrell, Mrs. Turner, Mrs. Harley and Edwin Hancock, the parties who have been visiting friends in England for the past two months, will leave Liverpool tomorrow morning on the steamer Luccania for New York.

—Reverend Huffer is visiting in Steubenville today.

REPUBLICAN TICKET.

For President, **WILLIAM MCKINLEY, Of Ohio.**

For Vice President, **GARRET A. HOBART, Of New Jersey.**

For Electors at Large, **ISAAC F. MAUCK, ALBERT C. DOUGLASS.**

For Secretary of State, **CHARLES KINNEY.**

For Judge of Supreme Court, **MARSHALL J. WILLIAMS.**

For Member of Board of Public Works, **FRANK HUFFMAN.**

For Congress, **ROBERT W. TAYLER.**

For Judge of the Circuit Court, **J. B. BURROWS.**

For Judge of Common Pleas Court, **F. M. SMITH.**

For Probate Judge, **J. C. HOOKE.**

For Clerk of Courts, **JOHN S. M'NUTT.**

For Recorder, **ED. M. CROSSER.**

For Commissioner, **CHRIS. BOWMAN.**

For Infirmary Director, **L. C. HOPES.**

For Coroner, **JOHN L. STRAUGHN.**

THE death of Bryanism means the regeneration of business.

Now that Editor Potts is out of the congressional fight, he will not be so anxious to carry those 11 townships.

MCKINLEY continues to shake hands with thousands every day, and he don't have to go away from home to do it.

DEMOCRATIC newspapers are devoting a considerable amount of space to the startling announcement that Colorado will vote for Bryan.

THE Populists in their Alliance meeting styled Hon. R. W. Taylor the hatchet-faced congressman. Some of them having evidently discovered that he was too sharp for them.

THE Democrats promised East Liverpool prosperity and good wages if Cleveland and low tariff were victorious. Every man, woman and child in town knows how that promise was broken. Now the Democrats are promising again, the only change being the substitution of Bryan for Cleveland, and free silver for free trade. Should they win the promise will be broken again, and times will be harder than ever. It is therefore the duty of every voter in East Liverpool to protect himself and his family by casting a ballot against the Democratic party.

WILDER THAN EVER. Too much condemnation cannot be heaped upon those men who are actively engaged in arraying the poor against the rich, the employee against the employer, the people against the people. They are the enemies of good government, the foes of the country. They dare not stand for the principles they pretend to represent, but dodge the issue by telling the workman that his employer is robbing him, and he toils day after day for the sole purpose of making some man rich. Their stock in trade is thought and language unworthy of good citizens, and their expressions are at times so wild and erratic that the widest stretch of imagination could not call them argument. There are men of this kind in Columbiana county. They pretend to represent the Democratic party. They want Bryan elected, and they are not particular as to what methods they use. It has been bad enough in past campaigns, but this year eclipses all records. The most questionable of expressions are in constant use, and the most inflammatory of language seems scarcely strong enough to suit their demands. But their efforts are in vain. The people will not endure this demagoguery. There is too much sense in Columbiana county to place an overabundance of confidence in the Lisbon Patriot or the Salem Herald.

Stylish Men's Suits.

We show the Very Newest Patterns of the season in all our goods. All the latest and most modern styles are included in our extensive stock, giving to the wearer

EASE, ELEGANCE and ENDURANCE.

Suits that are made right; tailor made garments; no sweat shop make about them. We buy from the best wholesale, tailor made manufacturers in the United States. This will insure you that you get the right goods and best make. We can save you at least from \$6.00 to \$20.00 on a suit of clothes. The merchant tailors in our city ask you \$6.00 to \$20.00 more for the same quality of goods and make. Investigate and see for yourself. This is an item these times.

Children's Suits, sizes 2 years to 15 years. Have you seen the new styles for the coming season? Attractive new styles, very swell, for the boys. Call and see our line.

Joseph Bros.

PROMINENT VISITORS.

A Vermont Delegation Greets Mr. McKinley Today.

THE CALLERS AT HEADQUARTERS.

Powderly Addresses a Massmeeting in New York City—Many People to Visit Canton Tomorrow—Other Political News and Gossip.

CANTON, O., Sept. 11.—Three delegations came via the Cleveland, Canton and Southern railroad today. The party of Republicans from Vermont was the first to arrive. The party consisting of Governor Woodbury, Governor-elect Grout, Senator Proctor and 100 others.

The Lincoln club of Erie, Pa., arrived on a special train. Governor Bushnell and staff arrived from Cleveland, where they were in attendance at the anniversary celebration of Commodore Perry's victory.

The employees of all the railroads centering in Chicago are making extensive arrangements to come to Canton Saturday, Sept. 19, to call on Major McKinley. Already 60 passenger cars have been ordered from the Fort Wayne company for the trip. The visitors will be residents of Chicago and railroad men. Messrs. B. Ray, yardmaster of the Rock Island route, and R. B. Lightcap, chief clerk of the freight department of the Pennsylvania lines at Chicago, have been in Canton on their way home from Pittsburgh to arrange for the trip. While in the city they engaged the Grand Army band for the day.

Charles T. Baker, ex-congressman, of Rochester, N. Y., has visited Major McKinley. Among the callers today is Governor Clarence Warrell Lippitt of Rhode Island, and staff.

A delegation of 1,000 Republicans from Somerset, Pa., will start on a pilgrimage to Canton next Tuesday morning. Every election district in the county will be represented by from 10 to 50 voters.

THE OUTLOOK ENCOURAGING. Visitors at Headquarters Bring Good News from the Northwest.

CHICAGO, Sept. 11.—The Republican executive committee has been so busy with the campaign in the south for the last week that for a time the news from the west has been overlooked as it came, but there were a number of western visitors to the headquarters, and as the northwestern states are getting into line, much interest was manifested in the situation out there.

Chairman Hanna has always been of the opinion that the tariff issue should be used in the silver states to hold the Republicans in line for McKinley, and the result seems to justify his policy.

Among the visitors today was Congressman J. Frank Aldrich of Chicago, who has just returned from a trip through the west. He said:

"I have canvassed the situation in the coast states thoroughly, and base my opinion on extensive talks with the political leaders in all of them. I now have no doubt whatever of Republican success in at least two or three states.

Senator Carter of Montana confirms this news. He has been in consultation with Mr. Hanna and declares that in Montana the chances favor the selection of McKinley electors. Thousands of Republicans who, like himself, were inclined to leave the party, have determined that although they are for liberal use of silver, they cannot stand the Chicago platform.

A NEW YORK MASSMEETING. Speeches Were Made by Terrence V. Powderly and Warner Miller.

NEW YORK, Sept. 11.—A massmeeting has been held in Cooper Union under the auspices of the campaign committee of the McKinley League. Terrence V. Powderly, late master workman of the Knights of Labor, and ex-Senator Warner Miller were the chief speakers.

The meeting was planned for wage-earners and a very large audience was present early, and when the speaking began the large hall was crowded.

In opening his address Mr. Powderly said: "Did I believe an apology for my presence on this platform necessary, I would say that I am here because I believe the right of the American wage-earner to receive the highest rate of compensation for service rendered, and the right to claim and receive the best

OUR GAIN BY LI'S VISIT.

Will Purchase Material in United States For a Railroad.

SEATTLE, Wash., Sept. 11.—Chinese residents of this city have appointed a committee consisting of Mark Ten Suie, Gee Hee and Lou King, representing the big Chinese mercantile concerns in Seattle, to wait upon and pay their respects to Li Hung Chang upon his arrival on Saturday at Vancouver, en route home.

Mark Ten Suie, who is a representative of the better class of Chinese, says the distinguished viceroy's visit means much to the United States; that Li will, upon his return to China, begin the construction of a system comprising no less than 33,000 miles of railroad, and that gold and silver mines in a range of mountains extending 1,500 miles along Northern China will be opened.

Much iron and machinery to be used in developing these enterprises will be purchased in the United States. Li proposes the publication of a book embracing his experiences of this trip.

SONS OF VETERANS ADJOURN.

They Elect and Install Officers—Indianapolis Next Meeting Place.

LOUISVILLE, Sept. 11.—The fifteenth national encampment of the Sons of Veterans has adjourned sine die. The last business was the installation of the officers elected. Many delegates remained in the city to enjoy the trolley party and reception at Fountain Ferry, but most of them left this morning.

The following officers were elected for the ensuing year: James L. Rake of Pennsylvania, commander-in-chief; L. P. Kennedy of Colorado, senior vice commander; R. M. Buckley of Louisiana, junior vice commander; council-in-chief, L. P. Kennedy, ex-officio president; F. W. Heine of Nebraska, Fred Meyers of Colorado.

Indianapolis was selected as the next place of meeting.

A ROBBER SHOT.

A 12-Year-Old Girl Kills a Masked Man With a Gun.

HICKSVILLE, O., Sept. 11.—The home of M. Tracht, four miles north of here, has been visited by two tramps who were bent on robbery. Mr. Tracht had been to Hicksville and drew from the bank \$1,000. The money was in the house while Mr. and Mrs. Tracht were at the home of a neighbor not far away.

Two masked men approached the house, and one entered while the other kept guard on the outside. Minnie, the 12-year-old daughter, was upstairs. She picked up a loaded shotgun that was standing in the room, and, seeing the thief through the transom, fired two shots, riddling his body. The other man, hearing the report, fled. The wounded man, who is a tramp, will die.

Express Office Robbed.

THOMASVILLE, Ga., Sept. 11.—The office of the Southern Express company in this city has been robbed of \$1,000. Thieves entered through the front door and found the safe key that was left in the office. The safe contained only one package containing \$1,000, which was taken. The burglary and robbery was one of the coolest and most daring criminal acts ever committed in this section of Georgia.

Rockefeller Brings Suit.

NEW YORK, Sept. 11.—John D. Rockefeller has decided to bring proceedings to compel the board of assessors of Tarrytown to lower the assessment on his summer residence there. The property has been assessed at \$1,000,000, which Mr. Rockefeller claims is five times its real value and 400 per cent more than last year's assessment.

Steamship Lines Have a Rate War.

BOSTON, Sept. 11.—The steamship lines doing business between this port and the maritime provinces are engaged in a rate war and fares are being slashed right and left. Railroads running from here eastward, as well as those in the provinces, will be involved unless harmony is restored at an early date.

Short in His Accounts.

DETROIT, Sept. 11.—Charles V. Bryan, cashier of the Detroit custom house, has been taken into custody charged with embezzlement of the government's money. His shortage, to which he confesses, is about \$3,600. It was discovered in the course of the regular annual examination of the custom house by the treasury agents.

A Fire on a Cruiser.

NEW YORK, Sept. 11.—A fire has occurred on the United States cruiser Bancroft, which is lying in dry dock at the Brooklyn navy yard preparatory to setting sail for Constantinople. It broke out in the forward port bunkers where coal is stored. The fire was put out without doing much damage.

Five Men Seriously Hurt.

ST. LOUIS, Sept. 11.—One man fatally and four others seriously injured is the result of an explosion caused by the careless handling of gasoline in the building occupied by the Mound City Cleaning and Drying company.

FRAUDULENT RAILROAD TICKETS

The Roads Between Chicago and St. Paul Have Been Victimized.

CHICAGO, Sept. 11.—The roads between this city and St. Paul are much worked up over some frauds that have been discovered in the side of the Grand Army tickets. It has been found that some of the brokers at St. Paul have secured a stamp similar to that of the agent appointed by the roads to certify the return portions of the Grand Army tickets, and a large number of tickets certified with the forged stamps have been presented for passage.

The roads have issued the most stringent orders to the conductors to see that the person presenting the ticket is the original purchaser, and as the time limit of the ticket expires on Sept. 15 they are not fearful that any large number of the tickets will be worked off on them after this. They have already, however, been victimized to a considerable extent.

ANOTHER NICARAGUA REVOLUTION.

Several Persons Arrested and Imprisoned—Bombs Found in a Church.

MANAGUA, Nicaragua, Sept. 11.—Another attempt at revolution has been suppressed here. Several persons, said to be without influence, have been arrested and imprisoned, accused of plotting to capture the military barracks here. An investigation followed and the police found hidden behind the sacristy of the Roman Catholic parish church a number of bombs. The priest in charge was arrested and is now in prison.

It is reported that General Lara, an officer who took part against President Zelaya in the recent insurrection, is among the prisoners and that he confessed while in prison, admitting all he knew of the present plot.

Five Hundred Men Strike.

NEW YORK, Sept. 11.—Five hundred reserve mechanics of various trades have gone out on strike at the large store building of Siegel, Cooper & Co. on account of the employment of non-union marble workers, who have been putting in a number of marble material furnished by Duse, a non-union contractor of this city.

Robert Beatty Pardoned.

PITTSBURGH, Sept. 11.—Robert Beatty has been pardoned out of the Western penitentiary. Beatty, it will be remembered, was charged with poisoning Homestead workmen and sentenced to five years' imprisonment. With him were also convicted Hugh F. Dempsey, James Davidson and Pat Gallagher. Davidson served his term out, Dempsey was pardoned and Gallagher is the only one left in prison.

Freight Train Wrecked.

GUNTOWN, Miss., Sept. 11.—A south-bound freight train on the Mobile and Ohio railroad has jumped the track here, completely demolishing 16 cars loaded with merchandise. Charles Scott, a painter of Louisville, was instantly killed, and E. B. Hultz of Norfolk badly injured.

The Plans of the Gold Men.

INDIANAPOLIS, Sept. 11.—National Chairman Bryan of the gold Democratic party has returned from Chicago, and announces that it has been decided to make the campaign, as far as their party is concerned, one of personal intercourse with the voter through speakers. The campaign will open Oct. 1.

ISN'T HE A DAISY?

How William J. Bryan Got Into the Farmers' Wool.

WHAT HE SAID IN CONGRESS

And How He Voted—Extracts From His Speeches in Favor of the Wilson-Gorman Tariff Bill—Ridiculed the Farmers—Would Buy Wool in Cheap Foreign Markets—Not Concerned About the Farmers' Welfare—Table Showing Prices Under Two Tariff Laws.

Mr. Bryan—I, therefore, Mr. Chairman, denounce as fallacious, as unworthy of consideration, the only reason that can be given in support of the tariff on wool, as a protective tariff and for protective purposes.—Congressional Record, vol. 23, page 2126.

He Pokes Fun at the Farmers.

Mr. Bryan—Out in Nebraska there was a time when we had almost one sheep for each man, woman and child. We look back to it as the "mutton age" of Nebraska. [Laughter.] But, alas, that happy day has passed. The number of sheep has continually decreased, until now, if every woman in the state named Mary insisted upon having a pet lamb at the same time we would have to go out of the state to get lambs enough to go around. [Laughter and applause.]

No; it is not because of the importance of the industry, nor is it because it is an infant industry. You may go back into history, sacred or profane, as far as tradition runs, and you will find the record of the sheep. Homer tells how Ulysses escaped from the cave of the Cyclops by means of a sheep. We read in the Bible that when Isaac was about to be offered up, away back in the patriarchal days, a ram was found caught by the horns in a thicket and offered in his stead; and further back than that, in the fourth chapter of Genesis, I think in the second verse—my Republican friends, of course, will remember [laughter]—it is recorded that the second son of the first earthly pair, "Abel was a keeper of sheep." And from that day to this.

Mr. Simpson—I want to ask the gentleman if we are to understand that this is a sacrifice you are offering up on the altar of protection?

Mr. Bryan—No, sir; we are only beginning an attack which will be continued just as long as there is anything to remedy. [Applause.]

But I was going to say, Mr. Chairman, that from that day to this the sheep has been the constant companion of man in all his travels, and it has differed from its modern owner, perhaps, the most in that it is recognized as the symbol of meekness. [Laughter.]—Congressional Record, Vol. 23, page 2126.

We Would Buy Wool in Cheap Foreign Markets.

Mr. Bryan—I have often thought how perplexed the sheep must have been after the passage of the last bill [the McKinley bill] when they got together and consulted among themselves as to how they were going to increase the amount of their wool now that the tariff had made it necessary. [Laughter.] But nobody, Mr. Chairman, has said to this house that protection would reduce the price of pasturage in this country, nor has anybody claimed that it would moderate the climate as to do away with the necessity for winter feeding. The theory, Mr. Chairman, upon which this is justified, might as well be met here as anywhere; and I want to state, as emphatically as words can state it, that I consider it as false in economy, and vicious in policy, to attempt to raise at a high price in this country that which we can purchase abroad at a low price.—Congressional Record, vol. 23, page 2126.

We Wanted Free Wool at Once.

Mr. Bryan—The people throughout the country declared in favor of free wool and a reduction of the tariff, and the farmers want free wool because they cannot be hoodwinked and deceived any longer, as these gentlemen seem to think.

Mr. Johnson of Ohio—Then why keep it from them?

Mr. Bryan—I would like to have it now.

Mr. Johnson of Ohio—Well, let us have it now.

Mr. Bryan—The gentleman can not bring free wool too soon to suit me. Congressional Record, vol. 26, page 893.

He Is Not Concerned About the "Wool Grower" and the "Egg Producer."

Mr. Pickler—I will help you this far. I am in favor of protecting all industries alike to a reasonable extent. I am not in favor of making the farmer bear all the brunt, as you make him to do in this bill, and yet give protection to the manufacturers in the east. [Applause.] That is what you do by this bill.

Mr. Bryan—The gentleman from South Dakota [Mr. Pickler] was complaining today because we would not allow the egg producers of this country

to tax the egg consumers, and as long as he asks a tariff on eggs he must submit to it on manufactures.

Mr. Pickler—Would not the gentleman do well to take more care of the woolgrowers and egg producers, and let the representatives of the consumers of these products take care of them? The gentleman had better take care of the farmers of the northwest, whom he in part represents.

Mr. Bryan—If the gentleman who represents the farmers of South Dakota would help to take care of the farmers instead of standing up for 98 per cent duty on the woolen goods which his people wear, and for an average of 50 per cent on the tariff schedules, he would do them better service.

Mr. Pickler—Our people do not pay a cent of that. We do not wear broadcloth out there. [Laughter.]—Congressional Record, vol. 26, page 227 (appendix.)

"It Is Immaterial Whether the Wool Grower Receives Any Benefit."

Mr. Bryan—Wool, for instance, is the chief raw material in the woolen industry, and it has been placed upon the free list. Whether the tariff on wool has raised the price of wool to the sheepgrower above the point it would have reached without a tariff, is a question which has been discussed rather than settled. Speaking for myself, it is immaterial, in my judgment, whether the sheepgrower receives any benefit from the tariff or not.—Congressional Record, vol. 26, page 226 (appendix.)

Mr. Bryan favored the Wilson-Gorman bill, even after it had become so obnoxious that some of its former friends could not support it, when Governor Cleveland said of it:

"It may well excite your wonder that Democrats are willing to depart from this, the most democratic of all tariff principles, and that the most inconsistent absurdity of such a proposed departure should be emphasized by the suggestion that the wool of the farmer be put on the free list and the protection of tariff taxation be placed around the iron ore and coal of corporations and capitalists."

Tom L. Johnson, in his speech in the house of representatives against the Wilson bill as amended by the senate, denounced it because it imposed a duty on sugar and removed the duty from wool. He said:

"You can not disguise it from the people for the people know it already, that the purpose of this sugar tax is to put millions and millions into the pockets of men who are already millionaires by robbing the people."

In opposing the same measure Bourke Cockran said:

"The iron industry will march to greater activity under this bill than the wool industry."

But Mr. Bryan was so bent upon getting at the farmers' wool that he voted for the Wilson-Gorman bill with all its iniquitous discriminations. The record of that vote is found in the Congressional Record, volume 26, page 848.

Mr. Bryan got free wool for the farmer. The results are no longer a matter of discussion. They are clearly set forth in the following:

Table A—American Wool, Philadelphia and Boston Prices.

REPUBLICAN TICKET.

For President,
WILLIAM MC KINLEY, I.
Of Ohio.

For Vice President,
GARRET A. HOBART,
Of New Jersey.

For Electors at Large,
ISAAC F. MACK,
ALBERT C. DOUGLASS,

For Secretary of State,
CHARLES KINNEY.

For Judge of Supreme Court,
MARSHALL J. WILLIAMS.

For Member of Board of Public Works,
FRANK HUFFMAN.

For Congress,
ROBERT W. TAYLOR.

For Judge of the Circuit Court,
J. B. BURROWS.

For Judge of Common Pleas Court,
P. M. SMITH.

For Probate Judge,
J. C. BOONE.

For Clerk of Courts,
JOHN S. M'NUTT.

For Recorder,
ED. M. CROSSLER.

For Commissioner,
CHRIS. BOWMAN.

For Indefinite Director,
L. C. ROOPER.

For Coroner,
JOHN L. STRAUGHN.

The death of Bryanism means the regeneration of business.

Now that Editor Potts is out of the congressional fight, he will not be so anxious to carry those 11 townships.

McKinley continues to shake hands with thousands every day, and he don't have to go away from home to do it.

DEMOCRATIC newspapers are devoting a considerable amount of space to the startling announcement that Colorado will vote for Bryan.

THE Populists in their Alliance meeting styled Hon. R. W. Taylor the hatchet-faced congressman. Some of them having evidently discovered that he was too sharp for them.

THE Democrats promised East Liverpool prosperity and good wages if Cleveland and low tariff were victorious. Every man, woman and child in town knows how that promise was broken. Now the Democrats are promising again, the only change being the substitution of Bryan for Cleveland, and free silver for free trade. Should they win the promise will be broken again, and times will be harder than ever. It is therefore the duty of every voter in East Liverpool to protect himself and his family by casting a ballot against the Democratic party.

WILDER THAN EVER.

Too much condemnation cannot be heaped upon those men who are actively engaged in arraying the poor against the rich, the employee against the employer, the people against the people. They are the enemies of good government, the foes of the country. They dare not stand for the principles they pretend to represent, but dodge the issue by telling the workman that his employer is robbing him, and he toils day after day for the sole purpose of making some man rich. Their stock in trade is thought and language unworthy of good citizens, and their expressions are at times so wild and erratic that the widest stretch of imagination could not call them argument. There are men of this kind in Columbiana county. They pretend to represent the Democratic party. They want Bryan elected, and they are not particular as to what methods they use. It has been had enough in past campaigns, but this year eclipses all records. The most questionable of expressions are in constant use, and the most inflammatory of language seems scarcely strong enough to suit their demands. But their efforts are in vain. The people will not endure this demagoguery. There is too much sense in Columbiana county to place an over abundance of confidence in the Lisbon Patriot or the Salem Herald.

Stylish Men's Suits.

We show the Very Newest Patterns of the season in all our goods. All the latest and most modern styles are included in our extensive stock, giving to the wearer

EASE, ELEGANCE and ENDURANCE.

Suits that are made right; tailor made garments; no sweat shop make about them. We buy from the best wholesaler, tailor made manufacturers in the United States. This will insure you that you get the right goods and best make. We can save you at least from \$6.00 to \$20.00 on a suit of clothes. The merchant tailors in our city ask you \$6.00 to \$20.00 more for the same quality of goods and make. Investigate and see for yourself. This is an item these times.

Children's Suits, sizes 2 years to 15 years. Have you seen the new styles for the coming season? Attractive new styles, very swell, for the boys. Call and see our line.

Joseph Bros.

PROMINENT VISITORS.

A Vermont Delegation Greets Mr. McKinley Today.

THE CALLERS AT HEADQUARTERS.

Powderly Addresses a Mass Meeting in New York City—Many People to Visit Canton Tomorrow—Other Political News and Gossip.

CANTON, O., Sept. 11.—Three delegations came via the Cleveland, Canton and Southern railroad today. The party of Republicans from Vermont was the first to arrive. The party consisting of Governor Woodbury, Governor-elect Grover, Senator Proctor and 100 others.

The Lincoln club of Erie, Pa., arrived on a special train. Governor Bushnell and staff arrived from Cleveland, where they were in attendance at the anniversary celebration of Commodore Perry's victory.

The employees of all the railroads centering in Chicago are making extensive arrangements to come to Canton Saturday, Sept. 19, to call on Major McKinley. Already 60 passenger cars have been ordered from the Fort Wayne company for the trip. The visitors will be residents of Chicago and railroad men. Messrs. B. Ray, yardmaster of the Rock Island route, and R. B. Lightcap, chief clerk of the freight department of the Pennsylvania lines at Chicago, have been in Canton on their way home from Pittsburgh to arrange for the trip. While in the city they engaged the Grand Army band for the day.

Charles T. Baker, ex-congressman, of Rochester, N. Y., has visited Major McKinley. Among the callers today is Governor Clarence Warrell Lippitt of Rhode Island, and staff.

A delegation of 1,000 Republicans from Somerset, Pa., will start on a pilgrimage to Canton next Tuesday morning. Every election district in the county will be represented by from 10 to 50 voters.

THE OUTLOOK ENCOURAGING.

Visitors at Headquarters Bring Good News From the Northwest.

CHICAGO, Sept. 11.—The Republican executive committee has been so busy with the campaign in the south for the last week that for a time the news from the west has been overlooked as it came, but there were a number of western visitors to the headquarters, and as the northwestern states are getting into line, much interest was manifested in the situation out there.

Chairman Hanna has always been of the opinion that the tariff issue should be used in the silver states to hold the Republicans in line for McKinley, and the result seems to justify his policy.

Among the visitors today was Congressman J. Frank Aldrich of Chicago, who has just returned from a trip through the west. He said:

"I have canvassed the situation in the coast states thoroughly, and base my opinion on extensive talks with the political leaders in all of them. I now have no doubt whatever of Republican success in at least two or three states."

Senator Carter of Montana confirms this news. He has been in consultation with Mr. Hanna and declares that in Montana the chances favor the selection of McKinley electors. Thousands of Republicans who, like himself, were inclined to leave the party, have determined that although they are for liberal use of silver, they cannot stand the Chicago platform.

A NEW YORK MASS MEETING.

Speeches Were Made by Terrence V. Powderly and Warner Miller.

NEW YORK, Sept. 11.—A mass meeting has been held in Cooper Union under the auspices of the campaign committee of the McKinley League. Terrence V. Powderly, late master workman of the Knights of Labor, and ex-Senator Warner Miller were the chief speakers.

The meeting was planned for wage-earners and a very large audience was present early, and when the speaking began the large hall was crowded.

In opening his address Mr. Powderly said: "Did I believe an apology for my presence on this platform necessary, I would say that I am here because I believe the right of the American wage-earner to receive the highest rate of compensation for service rendered, and the right to claim and receive the best

OUR GAIN BY LI'S VISIT.

Will Purchase Material in United States For a Railroad.

SEATTLE, Wash., Sept. 11.—Chinese residents of this city have appointed a committee consisting of Mark Ten Suie, Gee Hee and Lou King, representing the big Chinese mercantile concerns in Seattle, to wait upon and pay their respects to Li Hung Chang upon his arrival on Saturday at Vancouver, en route home.

Mark Ten Suie, who is a representative of the better class of Chinese, says the distinguished viceroy's visit means much to the United States; that Li will, upon his return to China, begin the construction of a system comprising no less than 35,000 miles of railroad, and that gold and silver mines in a range of mountains extending 1,500 miles along Northern China will be opened.

Much iron and machinery to be used in developing these enterprises will be purchased in the United States. Li proposes the publication of a book embracing his experiences of this trip.

SONS OF VETERANS ADJOURN.

They Elect and Install Officers—Indianapolis Next Meeting Place.

LOUISVILLE, Sept. 11.—The fifteenth national encampment of the Sons of Veterans has adjourned sine die. The last business was the installation of the officers elected. Many delegates remained in the city to enjoy the trolley party and reception at Fountain Ferry, but most of them left this morning.

The following officers were elected for the ensuing year: James L. Rake of Pennsylvania, commander-in-chief; L. P. Kennedy of Colorado, senior vice commander; R. M. Buckley of Louisville, junior vice commander; council-in-chief, L. P. Kennedy, ex-officio president; F. W. Heine of Nebraska, Fred Meyers of Colorado.

Indianapolis was selected as the next place of meeting.

A ROBBER SHOT.

A 12-Year-Old Girl Kills a Masked Man With a Gun.

HICKSVILLE, O., Sept. 11.—The home of M. Tracht, four miles north of here, has been visited by two tramps who were bent on robbery. Mr. Tracht had been to Hicksville and drew from the bank \$1,000. The money was in the house while Mr. and Mrs. Tracht were at the home of a neighbor not far away.

Two masked men approached the house, and one entered while the other kept guard on the outside. Minnie, the 12-year-old daughter, was upstairs. She picked up a loaded shotgun that was standing in the room, and, seeing the thief through the transom, fired two shots, riddling his body. The other man, hearing the report, fled. The wounded man, who is a tramp, will die.

Express Office Robbed.

THOMASVILLE, Ga., Sept. 11.—The office of the Southern Express company in this city has been robbed of \$1,000. Thieves entered through the front door and found the safe key that was left in the office. The safe contained only one package containing \$1,000, which was taken. The burglary and robbery was one of the coolest and most daring criminal acts ever committed in this section of Georgia.

Rockefeller Brings Suit.

NEW YORK, Sept. 11.—John D. Rockefeller has decided to bring proceedings to compel the board of assessors of this city to lower the assessment on his summer residence there. The property has been assessed at \$1,000,000, which Mr. Rockefeller claims is five times its real value and 400 per cent more than last year's assessment.

Steamship Lines Have a Rate War.

BOSTON, Sept. 11.—The steamship lines doing business between this port and the maritime provinces are engaged in a rate war and fares are being slashed right and left. Railroads running from here eastward, as well as those in the provinces, will be involved unless harmony is restored at an early date.

Short In His Accounts.

DETROIT, Sept. 11.—Charles V. Bryan, cashier of the Detroit custom house, has been taken into custody charged with embezzlement of the government's money. His shortage, to which he confesses, is about \$3,600. It was discovered in the course of the regular annual examination of the custom house by the treasury agents.

A Fire on a Cruiser.

NEW YORK, Sept. 11.—A fire has occurred on the United States cruiser Bancroft, which is lying in dry dock at the Brooklyn navy yard preparatory to setting sail for Constantinople. It broke out in the forward port bunkers where coal is stored. The fire was put out without doing much damage.

Five Men Seriously Hurt.

ST. LOUIS, Sept. 11.—One man fatally and four others seriously injured by the result of an explosion caused by the careless handling of gasoline in the building occupied by the Mound City Cleaning and Dyeing company.

FRAUDULENT RAILROAD TICKETS.

The Roads Between Chicago and St. Paul Have Been Victimised.

CHICAGO, Sept. 11.—The roads between this city and St. Paul are much worked up over some frauds that have been discovered in the sale of the Grand Army tickets. It has been found that some of the brokers at St. Paul have secured a stamp similar to that of the agent appointed by the roads to certify the return portions of the Grand Army tickets, and a large number of tickets certified with the forged stamps have been presented for passage.

The roads have issued the most stringent orders to the conductors to see that the person presenting the ticket is the original purchaser, and as the time limit of the ticket expires on Sept. 15 they are not fearful that any large number of the tickets will be worked off on them after this. They have at ready, however, been victimized to a considerable extent.

ANOTHER NICARAGUA REVOLUTION.

Several Persons Arrested and Imprisoned—Bombs Found in a Church.

MANAGUA, Nicaragua, Sept. 11.—Another attempt at revolution has been suppressed here. Several persons, said to be without influence, have been arrested and imprisoned, accused of plotting to capture the military barracks here. An investigation followed and the police found hidden behind the sacristy of the Roman Catholic parish church a number of bombs. The priest in charge was arrested and is now in prison.

It is reported that General Lara, an officer who took part against President Zelaya in the recent insurrection, is among the prisoners and that he confessed while in prison, admitting all he knew of the present plot.

Five Hundred Men Strike.

NEW YORK, Sept. 11.—Five hundred reserve mechanics of various trades have gone out on strike at the large store building of Siegel, Cooper & Co. on account of the employment of non-union marble workers, who have been putting in place marble material furnished by Duse, a non-union contractor of this city.

Robert Beatty Pardoned.

PITTSBURG, Sept. 11.—Robert Beatty has been pardoned out of the Western penitentiary. Beatty, it will be remembered, was charged with poisoning Homestead workmen and sentenced to five years' imprisonment. With him were also convicted Hugh F. Dempsey, James Davidson and Pat Gallagher. Davidson served his term out, Dempsey was pardoned and Gallagher is the only one left in prison.

Freight Train Wrecked.

GUNTOWN, Miss., Sept. 11.—A south-bound freight train on the Mobile and Ohio railroad has jumped the track here, completely demolishing 16 cars loaded with merchandise. Charles Scott, a painter of Louisville, was instantly killed, and E. B. Hultz of Norfolk badly injured.

The Plans of the Gold Men.

INDIANAPOLIS, Sept. 11.—National Chairman Bynum of the gold Democratic party has returned from Chicago, and announces that it has been decided to make the campaign, as far as their party is concerned, one of personal intercourse with the voter through speakers. The campaign will open Oct. 1.

ISN'T HE A DAISY?

How William J. Bryan Got Into the Farmers' Wool.

WHAT HE SAID IN CONGRESS.

And How He Voted—Extracts From His Speeches in Favor of the Wilson-Gorman Tariff Bill—Ridiculed the Farmers—Would Buy Wool in Cheap Foreign Markets—Not Concerned About the Farmers' Welfare—Table Showing Prices Under Two Tariff Laws.

Mr. Bryan—I, therefore, Mr. Chairman, denounce as fallacious, as unworthy of consideration, the only reason that can be given in support of the tariff on wool, as a protective tariff and for protective purposes.—Congressional Record, vol. 23, page 2126.

He Pokes Fun at the Farmers.

Mr. Bryan—Out in Nebraska there was a time when we had almost one sheep for each man, woman and child. We look back to it as the "matton age" of Nebraska. [Laughter.] But, alas, that happy day has passed. The number of sheep has continually decreased, until now, if every woman in the state named Mary insisted upon having a pet lamb at the same time we would have to go out of the state to get lambs enough to go around. [Laughter and applause.]

No; it is not because of the importance of the industry, nor is it because it is an infant industry. You may go back into history, sacred or profane, as far as tradition runs, and you will find the record of the sheep. Homer tells how Ulysses escaped from the cave of the Cyclops by means of a sheep. We read in the Bible that when Isaac was about to be offered up, away back in patriarchal days, a ram was found caught by the horns in a thicket and offered in his stead; and further back than that, in the fourth chapter of Genesis, I think in the second verse—my Republican friends, of course, will remember [laughter]—it is recorded that the second son of the first earthly pair, "Abel was a keeper of sheep." And from that day to this—

Mr. Simpson—I want to ask the gentleman if we are to understand that this is a sacrifice you are offering up on the altar of protection?

Mr. Bryan—No, sir; we are only begging an attack which will be continued just as long as there is anything to remedy. [Applause.]

But I was going to say, Mr. Chairman, that from that day to this the sheep has been the constant companion of man in all his travels, and it has differed from its modern owner, perhaps, the most in that it is recognized as the symbol of meekness. [Laughter.]—Congressional Record, vol. 28, page 2126.

He Would Buy Wool in Cheap Foreign Markets.

Mr. Bryan—I have often thought how perplexed the sheep must have been after the passage of the last bill (the McKinley bill) when they got together and consulted among themselves as to how they were going to increase the amount of their wool now that the tariff had made it necessary. [Laughter.] But nobody, Mr. Chairman, has said to this house that protection would reduce the price of pasture in this country, nor has anybody claimed that it would so moderate the climate as to do away with the necessity for winter feeding. The theory, Mr. Chairman, upon which this is justified, might as well be met here as anywhere; and I want to state, as emphatically as words can state it, that I consider it as false in economy, and vicious in policy, to attempt to raise at a high price in this country that which we can purchase abroad at a low price.—Congressional Record, vol. 23, page 2126.

He Wanted Free Wool at Once.

Mr. Bryan—The people throughout the country declared in favor of free wool and a reduction of the tariff, and the farmers want free wool because they can not be hoodwinked and deceived any longer, as these gentlemen seem to think.

Mr. Johnson of Ohio—Then why keep it from them?

Mr. Bryan—I would like to have it now.

Mr. Johnson of Ohio—Well, let us have it now.

Mr. Bryan—The gentleman can not bring free wool too soon to suit me.—Congressional Record, vol. 26, page 593.

He Is Not Concerned About the "Wool Grower" and the "Egg Producer."

Mr. Pickler—I will help you this far. I am in favor of protecting all industries alike to a reasonable extent. I am not in favor of making the farmer bear all the brunt, as you make him to do in this bill, and yet give protection to the manufacturers in the east. [Applause.] That is what you do by this bill.

Mr. Bryan—The gentleman from South Dakota (Mr. Pickler) was complaining today because we would not allow the egg producers of this country

to tax the egg consumers, and as long as he asks a tariff on eggs he must submit to it on manufactures.

Mr. Pickler—Would not the gentleman do well to take more care of the woolgrowers and egg producers, and let the representatives of the consumers of these products take care of them? The gentleman had better take care of the farmers of the northwest, whom he is part represents.

Mr. Bryan—If the gentleman who represents the farmers of South Dakota would help to take care of the farmers instead of standing up for 98 per cent duty on the woolen goods which his people wear, and for an average of 50 per cent on the tariff schedules, he would do them better service.

Mr. Pickler—Our people do not pay a cent of that. We do not wear broadcloth out there. [Laughter.]—Congressional Record, vol. 26, page 237 (appendix).

"It Is Immaterial Whether the Wool-grower Receives Any Benefit."

Mr. Bryan—Wool, for instance, is the chief raw material in the woolen industry, and it has been placed upon the free list. Whether the tariff on wool has raised the price of wool to the sheep-grower above the point it would have reached without a tariff, is a question which has been discussed rather than settled. Speaking for myself, it is immaterial, in my judgment, whether the sheep-grower receives any benefit from the tariff or not.—Congressional Record, vol. 26, page 226 (appendix).

Mr. Bryan favored the Wilson-Gorman bill, even after it had become so obnoxious that some of its former friends could not support it, when Grover Cleveland said of it:

"It may well excite your wonder that Democrats are willing to depart from this, the most democratic of all tariff principles, and that the most inconsistent absurdity of such a proposed departure should be emphasized by the suggestion that the wool of the farmer be put on the free list and the protection of tariff taxation be placed around the iron ore and coal of corporations and capitalists."

Tom L. Johnson, in his speech in the house of representatives against the Wilson bill as amended by the senate, denounced it because it imposed a duty on sugar and removed the duty from wool. He said:

"You can not disguise it from the people for the people know it already, that the purpose of this sugar tax is to put millions and millions into the pockets of the men who are already millionaires by robbing the people."

In opposing the same measure Bourke Cockran said:

"The iron industry will march to greater activity under this bill than the wool industry."

But Mr. Bryan was so bent upon getting at the farmers' wool that he voted for the Wilson-Gorman bill with all its iniquitous discriminations. The record of that vote is found in the Congressional Record, volume 26, page 5482.

Mr. Bryan got free wool for the farmers. The results are no longer a matter of discussion. They are clearly set forth in the following:

Table A—American Wool, Philadelphia and Boston Prices.

CUBANS SURE TO WIN

So Says a Member of a Filibustering Expedition.

THE INSURGENTS ARE NOT CRUEL.

Arms and Munitions of War Landed on the Island—The Three Friends Return From Her Successful Trip—Many Plantations in Ashes.

Key West, Sept. 11.—The famous filibuster, the Three Friends, which left Jacksonville several days ago with munitions and men for Cuba, has landed the expedition and is now en route home. The Three Friends has appeared off Key West, and, after sending ashore Dr. Castillo, who went along as manager of the expedition, proceeded to Jacksonville.

According to Dr. Castillo the expedition was landed at night on the south coast of Pinar del Rio province, and was met by a detachment from Antonio Maceo's army. The vessel put ashore 3,000 rifles, 100,000 cartridges, 600 pounds of stick dynamite and three cannon, besides a great quantity of clothing and shoes.

Nearly 100 men were also landed, among them being Hugh Stephens, Frank Kirksey and Frank Key of Jacksonville. The ammunition was greatly needed by Maceo, as his supply was about exhausted.

Dr. Castillo says that it is Maceo's intention to leave Pinar del Rio as soon as a favorable opportunity offers. It is the intention of Maceo and Gomez to force the fighting from now on.

Charles Raltare, who went to Cuba as a member of a filibustering expedition several months ago, has just returned from the island, and gives a thrilling account of his experiences while with the insurgents.

"The island outside of the towns," says Raltare, "is simply an ash heap, for both the insurgents and the Spaniards have used the torch until there is no longer anything to burn. For three months the sky at night has been lurid with flames and during the day it has been darkened with smoke.

"The sugar planter has been between the devil and the deep sea. 'If you grind,' say the Cubans, 'we will burn your mill.' 'If you don't grind,' say the Spaniards, 'we will burn your mill.' The result is that nine out of every ten sugar plantations in Cuba are in ashes."

Raltare speaks in the highest terms of the daring of the insurgents. While he was with them they raided several towns and these raids he describes in a graphic manner.

From Havana Raltare made his way to Key West and thence to Jacksonville. He denies the Spanish charge that the insurgents are cruel. "Although," he said, "the insurgents kill many towns they are kind to the people and in no case was a woman insulted."

"The Cubans," continued Raltare, "are sure to win."

Louis Payrol Martinez, a member of an expedition, landed by the steamer Three Friends, has been executed. He died as a Christian. Martinez was a nephew of the deceased Spanish general Gollin.

The steamers Buenos Ayres and San Fernando have arrived here with another detachment of troops for Cuba.

A Lake Steamer Stranded.

DETROIT, Sept. 11.—A special to the Press from Mackinac City says: The big steel steamer W. D. Rees, laden with grain, has stranded between Gray's reef and Hog Island on Lake Michigan. The Rees was towing the new Rockwell schooner George M. Corliss from the South Chicago shipyard. The Corliss dropped the tow-line and escaped.

Ex-Governor John Young Brown Hurt.

LOUISVILLE, Sept. 11.—Ex-Governor John Young Brown has been quite seriously injured by a fall while boarding a street car. His collar bone and an arm were broken and his crippled leg was badly hurt. The ex-governor is about 60 years old, but his physicians say he is in no immediate danger. Governor Brown is the Democratic candidate for congress in this district.

An Injunction Granted.

ATLANTA, Sept. 11.—United States Judge Emory Speer of the Southern district of Georgia has granted a mandatory injunction against the Seaboard Air line, the Southern and all other roads in the Southern States' Freight association, commanding them to restore the rates that were in existence on Sept. 5.

Cotton Crop Prospects Poor.

WASHINGTON, Sept. 11.—The cotton report of the department of agriculture shows a decline from the August condition of the crop, which was 80.1 to 74.1 per cent, a decline of 15.9 points. This is the lowest September condition reported in the last 27 years.

A Decline in the Corn Crop.

WASHINGTON, Sept. 11.—The September report of the statistician of the department of agriculture shows a decline in the condition of corn from the August statement of 6 points, or from 96 per cent in August to 90 in September.

FIRE ON AN EXPRESS TRAIN.

Large Amount of Mail Matter and Expressage Destroyed.

GOSHEN, Ind., Sept. 11.—The Lake Shore through express, carrying mails and express from New York to Chicago, caught fire near here and thousands of dollars worth of goods, with much mail matter, were destroyed. When the flames were discovered the train was slowed down and an effort made to extinguish them. It proved unavailing and a wild run with the blazing train was made for this city, six miles away. The fire department was called out and the fire subdued, but not before much of the valuable expressage had been destroyed. The origin of the fire is supposed to have been combustion.

THE LETTERCARRIERS.

They Strongly Endorse the Civil Service Law—Officers Elected.

GRAND RAPIDS, Sept. 11.—The letter-carriers national convention has adopted resolutions strongly endorsing the civil service rules and asking that the merit system be used wherever practicable. The committee on nominations reported the following nominations: For president, J. N. Parsons, New York; C. W. Worthington, Chicago, and J. F. Quinn, Philadelphia. For secretary, J. F. Victory, Philadelphia. For treasurer, Alex. McDonald, Grand Rapids.

The dispute over the admission of a delegate from the colored branch at Richmond was not settled, the committee to whom it was referred having apparently forgotten to report.

INDIANS DOING WELL.

They Would Need Little Aid if the Land Was Divided.

WASHINGTON, Sept. 11.—Commissioner of Indian Affairs Browning has completed a tour of inspection of Indian agencies in the far west and has returned here. His investigations convince him that the Indians are doing well this year and are in better condition generally than at any previous time.

He thinks that if they could be persuaded to divide their lands in severalty it would be only a matter of four or five years before the most of them would be self-supporting, many of them prosperous, and that the government could soon withdraw aid from them.

ASTRONOMERS DISAPPOINTED

Over the Failure of Their Observations in Japan.

SAN FRANCISCO, Sept. 11.—The steamer City of Peking has arrived from Hong Kong and Yokohama. The Peking brought advices from Yokohama up to Aug. 15. Among the passengers on the vessel was Lieutenant Evans, U. S. N., who is returning from duty on the Asiatic station. Lieutenant Evans says the Japanese and American astronomers were greatly disappointed at the failure of their eclipse observations on the 9th of July.

Astronomers assembled at Hakale, Japan, from all parts of the world to witness the eclipse. A thick fog prevailed throughout the day and scarcely a glimpse of the phenomenon could be caught through the telescopes. At nearly all points in Japan foggy weather spoiled the view.

AN IMPORTANT MISSION.

Labor Delegates Sent to Inquire into Conditions in Mexico.

CHICAGO, Sept. 11.—Paul J. Mass and Patrick Enright have started for Mexico on a mission that will be fraught with special interest to every laboring man in the United States. The two men go as the representatives of the Chicago Trade and Labor Assembly for the purpose of making a thorough and impartial investigation of the economic conditions which prevail in Mexico.

They are to find for themselves, without any suggestions from the organization they represent, or from any other sources, the true status of a workingman in a free silver country. The information they may gain and the conclusions they form will be submitted in a report to the Trade and Labor Assembly as soon as they return to Chicago, which will be about the 1st of October.

Twenty-Five Persons Poisoned.

DES MOINES, Ia., Sept. 11.—At a wedding at Bondurant, a small town near Des Moines, 25 persons were poisoned from ice cream, which was purchased in this city. Samples of the cream have been purchased by the health authorities and will be investigated. None of the cases has so far proved fatal, although several are seriously ill.

No Further Trouble Feared.

WASHINGTON, Sept. 11.—Comptroller Eckels has received a telegram from the bank examiner at New Orleans stating that the clearing house had begun the issue of certificates and that the danger of further trouble had passed. Bank Examiner Tucker, with headquarters at Cincinnati, has been placed in charge of the Mutual National bank, which has suspended.

Rubber Plant Resumes.

NEW HAVEN, Sept. 11.—The L. Canoe company, manufacturers of rubber shoes, and one of the largest members of the United States Rubber company, has resumed operations today in all departments, giving work to 1,300

A CYCLONE IN PARIS.

Fifty Persons Injured and Much Damage Done.

DESOLATION AND RUIN IN ITS PATH

Carriages Overturned, Trees Uprooted, People Blown in the Seine and Many Windows Shattered—Many Streets Blocked in the Heart of the City.

PARIS, Sept. 11.—A violent cyclone has swept over portions of this city. Omnibuses, cabs and stalls in the streets were overturned, trees were blown down, store windows were broken, barges were sunk in the river Seine and the firemen had to be called out.

Paris is much stirred up and excited over the cyclone, which develops into a disaster of considerable proportions. The number of minor casualties and injuries to persons is large and further reports are constantly being received. Over 50 injured have thus far been reported to one fire station alone and five dead were brought in.

Several men and women had their skulls fractured by the falling of some gables behind which they had sought shelter from the storm.

A cab driver, who had taken refuge in his cab, and his horses were killed together and the cab demolished.

Nine members of the staff of La France, who were leaving the tribunal de commerce when the storm suddenly broke, were all seriously injured, one having his skull fractured.

At least a dozen persons were carried bodily into the Seine from the bridges and from the quais and were rescued with great difficulty, several being injured and left in a critical condition so that they had to be taken to the hospitals. The breaking of the storm was accompanied by many demonstrations of fright by individuals and by crowds, the panic of one spreading to another, the lowering of the sky and the howling of the tempest, filling the air with flying debris, frightening the crowds in the streets out of self-control. Everybody started to run without regard to obstacles, personal or otherwise, that might come in their way, and there was shouting and screaming to add to the confusion.

The damage to property was widespread and serious. The first tempest of wind, which did most of the damage, was immediately succeeded by torrents of rain, and cellars all over Paris are flooded.

The Qui des Orfèvres shows a striking scene of desolation, buildings being damaged, things overturned, and all looking as though swept by a torrent of rushing water.

The cyclone only lasted about one minute, but in addition to the damage already mentioned, considerable destruction was caused on and about the Pont Neuf, the Place du Chatelier, the Observatoire, the Tour St. Jacques and elsewhere in the neighborhood.

From the quai St. Michael to beyond the Pont Neuf every tree was uprooted, many barges were sunk and a number of small boats were swamped. The crews of the barges, however, succeeded in escaping.

One of the laundry boats of the Seine where 30 laundresses were at work was sunk and the women were saved with the greatest difficulty.

The scaffolding of the courtyard of the Sainte Chapelle was blown away and every pane of glass in the palace of justice facing the river was smashed by uprooted trees, etc.

All the omnibuses struck by the cyclone were upset and their passengers were more or less injured.

Prof. Palmieri Dead.

ROME, Sept. 11.—Prof. Luigi Palmieri, the celebrated Italian meteorologist, is dead. He was born in 1807, and in 1854 took charge of the meteorological observatory of Vesuvius. His name has been connected with all reports of eruptions since that time, principally in 1872, when his life was in danger. He was the author of a number of interesting works and was the inventor of several valuable instruments designed to measure rainfalls, to study atmospheric electricity, and to record subterranean disturbances.

Arrested on Suspicion of Murder.

DENVER, Sept. 11.—Warren D. Whitehead and Mrs. Patrick Kearney died last night under circumstances which caused the arrest of Whitehead's wife on suspicion of murder. They were drinking beer at Whitehead's house. Mrs. Whitehead declined to imbibe and soon afterwards the others began to show symptoms of poisoning and died in great agony.

Advices Spain to Give Up Cuba.

NEW YORK, Sept. 11.—A special cablegram from London says: The Financial Times advises Spain to let Cuba go. If not, and the expenditure goes on at the same rate for a year or two longer, it says, it will mean bankruptcy for Spain and chaos for Cuba.

The Condition of the Treasury.

WASHINGTON, Sept. 11.—The statement of the condition of the treasury shows: Available cash balance, \$249,479,856; gold reserve, \$197,394,958.

LOCAL BREVITIES.

Born to Mr. and Mrs. James Blazer, Forest street—a daughter.

A party of Gypsies have been camped on the river shore near the glass house for several days.

Marion Poole, a member of Company E, left for Matamoros where he has secured a position.

Daisy Dean, the horse that took second place on Labor day, has been entered in the races at Lisbon.

Miss Georgie Kelly returned home last evening, after a visit with friends in Jefferson county.

The thermometer registered 65 degrees early this morning, the warmest it has been for over three weeks.

E. J. Owen assumed the management of the East End pottery last Monday, and the plant is now running with a full force.

The Reverend Mr. Henley, of Pittsburgh, will conduct the regular services in St. Stephen's morning and evening next Sunday.

A spring wagon loaded with wheat belonging to S. F. Moore, of Clarkson, had a wheel taken off on Washington street this morning while crossing the street car track.

Society will dance at Brunt's next Tuesday evening for the benefit of the football club, the invitations, signed by prominent members of social clubs, having been sent out this morning.

Work on the Wellsville road progresses rapidly, and it will not be long until it is in as good condition as any road in the county. All the dangerous places are being well protected.

Two strands of wire for the bridge cable have been finished, and work on a third has commenced. The task is necessarily a slow one owing to the minute details involved in the work.

Thomas Smith, of Ravine street, killed a blacksnake that measured five feet in length on Thompson hill yesterday afternoon. The reptile showed fight, and was only dispatched after a struggle.

Charles McCauley and Albert Shenton moved their families from New Cumberland to this city this week. George Smurthwaite and family will move to the city from the same place Monday.

Two well known Seventh street residents indulged in a war of words last evening, and for a time it looked as though blows would be struck, but the intervention of their wives prevented the battle.

Samuel Strickline, who lives in the lower part of the city, mashed his hand badly yesterday afternoon. Strickline was hammering a bolt with a hatchet, and the latter slipped and made a painful wound.

Alex. McGraw while trying to alight from his bicycle yesterday afternoon on Fifth street received a severe fall. He had only one hand on the handle bar, and when the bicycle started for the curbstone could not control it.

A number of children in the city have been suffering from sore mouths. Their tongues swell and they can only talk with difficulty. The blame is all laid on a confection, very popular at present, and known as the all-day-sucker.

The anticipated rise in the river did not come, and an extremely low stage of water exists at present. However, very little complaint is heard from rivermen, who realize it is only a question of a short time until the fall rise comes.

The Parks company owing the Kenilworth plant are working a large force of men every day. Many improvements are being added, and the output constantly increased. If trade shows signs of improving they will build a railroad to the river, and ship much of their product by boat.

Officer Whan last night found Mrs. Honck wandering about Second street under the influence of liquor. She was not disturbing the peace, but knowing a few things from events of the past the officer compelled her to go home under the pain of arrest if she neglected to obey the command.

The West End culvert was finished today, and Engineer George says the brick arch will be invaluable should there be more big floods. Attention will next be given to East End, Eighth street and Green lane where it has been deemed necessary by council to construct strong culverts.

The people who attended the Beaver Falls street fair came home last night pleased with the entertainment afforded. The live business men at the head of the movement worked hard to make it a success. Thousands of visitors were in the town yesterday, and every opportunity for enjoyment was presented.

A horse driven by George Zink ran off on Second street this morning, but fortunately did no damage. A small boy waved a stick in front of the animal, and it started up the street at a break neck pace. The driver tugged at the reins, and succeeded in stopping the frightened horse in front of the Sebring pottery.

The bell at city hall tapped at 4 o'clock this morning, and Fireman Terrence went on a tour of investigation today to ascertain the cause of the annoyance. About the same hour yesterday the bell sounded three times. It is thought some of the telephone wires have become crossed with the fire system.

ROYAL BAKING POWDER

A cream of tartar baking powder. Highest of all in leavening strength.—Latest United States Government Food Report.

ROYAL BAKING POWDER CO., New York.

HUMMING BIRDS.

It is a Mistake to Think They Cannot Be Tamed.

It is popularly supposed that humming birds are too delicate to endure captivity, but this is a mistake, as I personally know, says a writer in the New York Home Journal, and can give account of several that have been tamed. Living specimens of these tiny members of the feathered tribe were owned by a friend of mine awhile since and exhibited in the window of the late proprietor of Taylor's saloon, Broadway, New York. In fact, instances are numerous in which they have been kept for months, and even for a year, incaged, in England as well as in this country, and I believe that a large collection has for some time existed in the Zoological gardens, Regent's park, London. A young lady of New York has for some time amused herself with these delicate creatures as pets. They build their nests in the lace curtains and have raised little families in the parlor. There are plants for them to fly about in, and every day the florist sends a basket of flowers for them to extract honey from. They are like little rainbows flying about the room, and they light on the head of their dainty mistress with perfect freedom.

The humming birds shown in Broadway were caught by a German, who succeeded in taming them very easily. They subsist, when caged, upon honey or sugar and water. He had them placed in little crystal cages, with pretty spray perches and bunches of glass flowers, in whose cups their food was placed. After being caged two months they became so tame that they readily learned to thrust their long, slender, threadlike tongues between the lips of their keeper for the sweets on which they subsisted. In their natural state they also feed upon the minute insects which infest flowers, and no doubt, if this sort of food were supplied to them, together with honey, by those who held them in confinement, they might be kept alive for as long a time as some of the more hardy pets of the aviary.

The birds at Taylor's attracted a crowd of people from morning till night, who seemed to never grow weary of watching them. They were evidently at that time a "new sensation" to the habitués of Broadway. Nor is this to be wondered at, for, what with the flashing iridescence of their plumage, changing with every motion, from emerald to ruby and gold, their marvelous delicacy of form, their extreme rapidity of flight, now hovering over the honey laden calyx, now darting from spray to spray or perching upon a twig, coquettishly plumping themselves with their long, slender beaks, they are really objects of grace and beauty, worthy the admiration of every beholder.

A Pumice Stone Barrier.

A floating barrier of pumice stone 19 miles long, over 1,000 yards wide and 15 feet deep, closing a seaport to all vessels as effectually as a boom could do, is not the sort of thing one is likely to forget, and yet that was one of the results of the Krakatoa eruption, the port being Telok Retung, in Sunda straits. Formed in a few hours, it would almost seem to be the supreme effort of nature in the pumice making line were it not that such immense quantities are found at the bottom of the sea—a queer place for pumice stone. But pumice, when produced, is really heavy. It is only the air cavities in it that make it light, and as it floats it becomes water logged and down it goes. Most of the pumice we use in Europe comes from the Lipari islands, north of Sicily, "the home of Vulcan," whence Vulcanism is the name of one of them, and our "volcano" as descriptive of the natural force of which it is the type. Here are the pumice quarries—at Monte Chiarica and its craters Monte Pelata and Forgia Vecchia—where over 1,000 men are at work in the narrow tunnels and galleries, lighted by clay lamps of antique form. The whole hillside is perforated with groups of these tunnels, which number between 200 and 300 and are so narrow that the men can hardly pass each other in them. And just as coal is found in beds alternated with sandstone and shale, so the pumice is in layers between harder lavas and ashes.—Leisure Hour.

Vocabulary of One Word.

"I shall never forget my first visit to Madrid," said a woman to the New York Sun man. "I was the only member of our party who knew any Spanish, and I knew but one word, that being 'leche'—milk. But by means of gestures we managed to get along until breakfast was served. Then, as luck would have it, the maid brought my coffee without any milk, and also, as luck would have it, I promptly forgot the one word of Spanish that I knew, and which of all words was the one most wanted at that moment. This time neither gesture nor yelling was of any avail; so, at last, in desperation, I seized a piece of paper and a pencil and drew a picture of a cow. Whereupon the maid tripped off and came back with three tickets to the bull fight."

THE PLOT SPOILED.

She was sitting in the corner of the carriage opposite to me, and we had got into conversation via the window, which I pulled down for her, and a magazine, which I lent her. She agreed with me that it was a hot day and that the magazine was stupid. A chance incident gave a more personal turn to the conversation. I took out my pocketbook to see that my ticket was safe and let a letter drop on the floor of the carriage. The letter was addressed to the Earl of Dunmore. Her eyes fell on it, and she looked at me with a pleased smile.

"Is that you? Are you an earl?" she asked.

Now I may at once state that I am not an earl, and that the letter was not addressed to me, but was intended for my autograph collection. Yet she was pretty, and I thought she seemed pleased at the idea that I was an earl. The only other occupants of the carriage were two somnolent old ladies, who were not likely to overhear me, so I decided to be an earl, and condescendingly admitted the fact.

"I'm so glad," she answered. "I did so want to meet a real lord."

"I am gratified that my presence is any pleasure to you," I said, wondering whether she was an American or merely an ordinary radical.

"You see," she replied, "I write a little."

"You're not going to interview me?" I exclaimed in real alarm, for the Earl of Dunmore might be a choleric man and the consequences unpleasant.

"Oh, no," she answered. "I don't write things like that. I write novels."

"A milder form of fiction," I suggested.

"Perhaps I've read your novels."

"I'm afraid an earl wouldn't have read them. They only come out in penny editions," she said wistfully. "But I'm writing a serial story for a Sunday paper now. That's better, isn't it?"

"Much better. You're getting on," I replied, with increased interest in my companion, for I had long wished to know what kind of person writes penny dreadfuls.

"But are you going to put me into the serial story?"

"Would you mind much?" she asked.

"Well, if you don't give my name," I said.

"It's awfully good of you," she answered gratefully, "and you can tell me a lot of things I want to know. You see, people who buy penny books like them to be about lords, and it's so hard to write about lords when you've never met one."

"If I can be of any assistance," I said.

"Thank you very much," she said.

"Now tell me, are you a bad lord or a good lord? They're always very bad or very good, aren't they?"

"Generally," I said. "I'm afraid I'm one of the bad kind."

"I'm so glad," she answered. "There's a good man in my story. He's the hero, and I can write about him pretty easily, because he comes to see the humble heroine. And there's a bad earl. He's the villain, and he lives in his castle, and that's what makes it so hard. How are you so bad?"

"Oh, I'm pretty bad all round," I said.

"It's not necessary to be particular to a crime or two in drawing my character. I'm sorry that I can't tell you much about my crimes. The police, you know. That's the worst of a democracy."

"Oh, I like that," she replied. "I'll certainly put that in. But you might let me about them. I wouldn't let any one know they were yours."

"I am not alone in these matters," I said mysteriously. "I am sworn to a silence as deep as the grave. I wish I could be more explicit. Our crimes are so unlike the petty crimes of the people."

"Are you going to your castle now?" she asked.

"No," I said. "I'm going to Kinton to stay with a man there. He's a mere commoner, but he's got money, and dice can be clogged, you know."

"You play with clogged dice, do you?" she asked.

"How lovely! I'm going to Kinton, too," she added after a pause.

"Do you live there?" I asked, beginning to feel uneasy.

"No," she said. "I'm going to Mrs. Dawson's."

"Mrs. Dawson's?" I inquired faintly.

"On a visit?"

"No," she said. "I am going as maid to Mrs. Dawson. I was in service, you know, before I took to literature, and I generally take a place for my summer holiday. It will be jolly. I've never been at so big a house before."

I was very uncomfortable, for I was going to stay at the house too.

It occurred to me at first to pretend that I was traveling incognito, but she would be certain to find me out. In all probability Mrs. Dawson would be in possession of the whole conversation in a day or two, and I should become a laughing stock. I am a shy man and averse to ridicule. Besides, for several reasons, I wished to produce a good impression on Mrs. Dawson.

I decided to make a clean breast of the whole thing to the young woman. When I had told her, she looked at me with unutterable contempt.

"Then you're not a lord at all," she said. "And was everything else you told me just as untrue?"

"I am afraid so," I answered.

"You ought to be ashamed of yourself," she went on. "You might have spelt my novel altogether. I shall write to the Authors' society about you."

"I want you," I said, "not to tell any one."

I reasoned with her for some time, and eventually agreed to give her a sovereign down and three more if she kept the secret while I was at Kinton. We had only just concluded the agreement when we reached our destination. As we stopped, the young woman handed the sovereign back and said, with a smile:

"Mr. Trevor, you shouldn't pretend to be the Earl of Dunmore when your name is on your hatbox."

"Hello, Lena, here you are," exclaimed Mr. Dawson from the platform. "How do you do, Trevor? I didn't know you knew my niece."

"Please don't tell," I whispered.

"Of course not," she answered. "I have the eyes of a wild bird countess." And she did not tell.—Kinchanga.

A Great Relief.

Tramp—Please, ma'am, I haven't a friend or a relative in the world.

Housekeeper—Well, I'm glad there's no one to worry over you in case you get hurt. Here, Tiger!—Boston Traveler.

Copper wires are used for Mexican telegraph lines, so that they will hold the weight of the birds and monkeys that crowd them at night.

Minnesota and South Dakota are the only two states in the Union that have half of their population made up of foreign born residents.

THE .. CROSSER- OGILVIE CO

We have just opened 25 dozen Ladies' Wrappers & Tea Gowns. There is nothing remarkable about that if they were the ordinary sort that every body sells, but we have a little more to say about them.

We are having a Wrapper Sale. It is to last one week, and we have an object in view in having this sale. Our display of these goods is on the 2d floor, in our Cloak room. Already our fall and winter Cloaks are beginning to arrive. We must have more room. The Wrappers must be gotten out of the way, hence this sale.

\$1.00; 10 dozen at this price.

Just take a look at them, even if you are not wanting one. If the values are not as good as you ever got for \$1.40 don't buy.

\$1.25; 5 dozen at this price.

They are dreams. Made of the newest materials, latest sleeves, wide skirts, and stylish all over.

\$1.50; 5 dozen at this price.

Have you ever had a Tea Gown that cost you \$5 or \$6? Look at these and you will admit at once that we are showing as much style for \$1.50 as you have been in the habit of paying \$5.00 for.

\$1.75; the best one.

No blowing, but downright facts about this Wrapper Sale. It begins Saturday, Sept. 12, and lasts one week.

Spring chickens at Joseph's, No. 102 Fifth street, Saturday.

A cream of tartar baking powder. Highest of all in leavening strength.—Latest United States Government Food Report.
ROYAL BAKING POWDER CO., New York.

HUMMING BIRDS.

It is a Mistake to Think They Cannot Be Tamed.

It is popularly supposed that humming birds are too small to endure captivity, but this is a mistake, as I personally know, says a writer in the New York Home Journal, and can give account of several that have been tamed. Living specimens of these tiny members of the feathered tribe were owned by a friend of mine awhile since and exhibited in the window of the late proprietor of Taylor's saloon, Broadway, New York. In fact, instances are numerous in which they have been kept for months, and even for a year, in England as well as in this country, and I believe that a large collection has for some time existed in the Zoological gardens, Regent's park, London. A young lady of New York has for some time amused herself with these delicate creatures as pets. They build their nests in the lace curtains and have raised little families in the parlor. There are plants for them to fly about in, and every day the florist sends a basket of flowers for them to extract honey from. They are like little rainbows flying about the room, and they light on the head of their dainty mistress with perfect freedom.

The humming birds shown in Broadway were caught by a German, who succeeded in taming them very easily. They subsist, when caged, upon honey or sugar and water. He had them placed in little crystal cages, with pretty spray perches and bunches of glass flowers, in whose cups their food was placed. After being caged two months they became so tame that they readily learned to thrust their long, slender, threadlike tongues between the lips of their keeper for the sweets on which they subsisted. In their natural state they also feed upon the minute insects which infest flowers, and no doubt, if this sort of food were supplied to them, together with honey, by those who held them in confinement, they might be kept alive for as long a time as some of the more hardy pets of the aviary.

The birds at Taylor's attracted a crowd of people from morning till night, who seemed to never grow weary of watching them. They were evidently at that time a "new sensation" to the habitués of Broadway. Nor is this to be wondered at, for, what with the flashing iridescence of their plumage, changing with every motion, from emerald to ruby and gold, their marvelous delicacy of form, their extreme rapidity of flight, now hovering over the honey laden calyx, now darting from spray to spray or perching upon a twig, coquetishly plumping themselves with their long, slender beaks, they are really objects of grace and beauty, worthy the admiration of every beholder.

A Pumice Stone Barrier.

A floating barrier of pumice stone 19 miles long, over 1,000 yards wide and 15 feet deep, closing a seaport to all vessels as effectually as a boom could do, is not the sort of thing one is likely to forget, and yet that was one of the results of the Krakatoa eruption, the port being Telok Retung, in Sunda straits. Formed in a few hours, it would almost seem to be the supreme effort of nature in the pumice making line were it not that such immense quantities are found at the bottom of the sea—a queer place for pumice stone. But pumice, when produced, is really heavy. It is only the air cavities in it that make it light, and as it floats it becomes water logged and down it goes. Most of the pumice we use in Europe comes from the Lipari islands, north of Sicily, "the home of Vulcan," whence Vulcanus is the name of one of them, and our "volcano" as descriptive of the natural feature of which it is the type. Here are the pumice quarries—at Monte Chirica and its craters Monte Pelata and Forgia Vecchia—where over 1,000 men are at work in the narrow tunnels and galleries, lighted by hays lamps of antique form. The whole hillside is perforated with groups of these tunnels, which number between 200 and 800 and are so narrow that the men can hardly pass each other in them. And just as coal is found in beds alternated with sandstone and shale, so the pumice is in layers between harder lavas and ashes.—Leisure Hour.

Vocabulary of One Word.

"I shall never forget my first visit to Madrid," said a woman to the New York Sun man. "I was the only member of our party who knew any Spanish, and I knew but one word, that being 'leche'—milk. But by means of gestures we managed to get along until breakfast was served. Then, as luck would have it, the maid brought my coffee without any milk, and also, as luck would have it, I promptly forgot the one word of Spanish that I knew, and which of all words was the one most wanted at that moment. This time neither gesture nor yelling was of any avail; so, at last, in desperation, I seized a piece of paper and a pencil and drew a picture of a cow. Whereupon the maid tripped off and came back with three tickets to the bull fight."

THE PLOT SPOILED.

She was sitting in the corner of the carriage opposite to me, and we had got into conversation via the window, which I pulled down for her, and a magazine, which I lent her. She agreed with me that it was a hot day and that the magazine was stupid. A chance incident gave a more personal turn to the conversation. I took out my pocketbook to see that my ticket was safe and let a letter drop on the floor of the carriage. The letter was addressed to the Earl of Dunmore. Her eyes fell on it, and she looked at me with a pleased smile.

"Is that you? Are you an earl?" she asked.
Now I may at once state that I am not an earl, and that the letter was not addressed to me, but was intended for my autograph collection. Yet she was pretty, and I thought she seemed pleased at the idea that I was an earl. The only other occupants of the carriage were two somewhat old ladies, who were not likely to overhear me, so I decided to be an earl, and condescendingly admitted the fact.
"I'm so glad," she answered. "I did so want to meet a real lord."

"I am gratified that my presence is any pleasure to you," I said, wondering whether she was an American or merely an ordinary radical.
"You see," she replied, "I write a little."

"You're not going to interview me?" I exclaimed in real alarm, for the Earl of Dunmore might be a choleric man and the consequences unpleasant.
"Oh, no," she answered. "I don't write things like that. I write novels."

"A milder form of fiction," I suggested.
"Perhaps I've read your novels."

"I'm afraid an earl wouldn't have read them. They only come out in penny editions," she said wistfully. "But I'm writing a serial story for a Sunday paper now."

"That's better, isn't it?"
"Much better. You're getting on," I replied, with increased interest in my companion, for I had long wished to know what kind of person writes penny dreadfuls. "But are you going to put me into the serial story?"
"Would you mind much?" she asked.
"Well, if you don't give my name," I said.

"It's awfully good of you," she answered gratefully, "and you can tell me a lot of things I want to know. You see, people who buy penny books like them to be about lords, and I've so hard to write about lords when you've never met one."

"If I can be of any assistance," I said.

"Thank you very much," she said. "Now tell me, are you a bad lord or a good lord? They're always very bad or very good, aren't they?"

"Generally," I said. "I'm afraid I'm one of the bad kind."

"I'm so glad," she answered. "There's a good marquis in my story. He's the hero, and I can write about him pretty easily, because he comes to see the humble hero. And there's a bad earl. He's the villain, and he lives in his castle, and that's what makes it so hard. How are you so bad?"

"Oh, I'm pretty bad all round," I said. "It's not necessary to be particular to a crime or two in drawing my character. I'm sorry that I can't tell you much about my crimes. The police, you know. That's the worst of a democracy."

"Oh, I like that," she replied. "I'll certainly put that in. But you might let me about them. I wouldn't let any one know they were yours."

"I am not alone in these matters," I said mysteriously. "I am sworn to a silence as deep as the grave. I wish I could be more explicit. Our crimes are so unlike the petty crimes of the people."

"Are you going to your castle now?" she asked.

"No," I said; "I'm going to Kinton to stay with a man there. He's a mere commoner, but he's got money, and dice can be clogged, you know."

"You play with clogged dice, do you?" she asked.

"How lovely! I'm going to Kinton, too," she added after a pause.

"Do you live there?" I asked, beginning to feel uneasy.

"No," she said. "I'm going to Mrs. Dawson's."

"Mrs. Dawson's?" I inquired faintly. "On a visit?"

"No," she said; "I am going as maid to Mrs. Dawson. I was in service, you know, before I took to literature, and I generally take a place for my summer holiday. It will be jolly. I've never been at so big a house before."

I was very uncomfortable, for I was going to stay at the house too.
It occurred to me at first to pretend that I was traveling incognito, but she would be certain to find me out. In all probability Mrs. Dawson would be in possession of the whole conversation in a day or two, and I should become a laughing stock. I am a shy man and averse to ridicule. Besides, for several reasons, I wished to produce a good impression on Mrs. Dawson. I decided to make a clean breast of the whole thing to the young woman. When I had told her, she looked at me with unutterable contempt.

"Then you're not a lord at all," she said. "And was everything else you told me just as untrue?"

"I am afraid so," I answered.
"You ought to be ashamed of yourself," she went on. "You might have spoilt my novel altogether. I shall write to the Authors' society about you."

"I want you," I said, "not to tell any one."

I reasoned with her for some time, and eventually agreed to give her a sovereign down and three more if she kept the secret while I was at Kinton. We had only just concluded the agreement when we reached our destination. As we stopped, the young woman handed the sovereign back and said, with a smile:

"Mr. Trevor, you shouldn't pretend to be the Earl of Dunmore when your name is on your hatbox."

"Hello, Laura, here you are," exclaimed Mr. Dawson from the platform. "How do you do, Trevor? I didn't know you knew my niece."

"Please don't tell," I whispered.

"Of course not," she answered. "I have the eyes of a well bred countess." And she did not tell.—Exchange.

A Great Relief.

Tramp—Please, ma'am, I haven't a friend or a relative in the world.
Housekeeper—Well, I'm glad there's no one to worry over you in case you get hurt. Here, Tiger!—Boston Traveller.

Copper wires are used for Mexican telegraph lines, so that they will hold the weight of the birds and monkeys that crowd them at night.

Minnesota and South Dakota are the only two states in the Union that have half of their population made up of foreign born residents.

THE CROSSER-OGILVIE CO

We have just opened 25 dozen Ladies' Wrappers & Tea Gowns. There is nothing remarkable about that if they were the ordinary sort that every body sells, but we have a little more to say about them.

We are having a Wrapper Sale. It is to last one week, and we have an object in view in having this sale. Our display of these goods is on the 2d floor, in our Cloak room. Already our fall and winter Cloaks are beginning to arrive. We must have more room. The Wrappers must be gotten out of the way, hence this sale.

\$1.00; 10 dozen at this price.

Just take a look at them, even if you are not wanting one. If the values are not as good as you ever got for \$1.40 don't buy.

\$1.25; 5 dozen at this price.

They are dreams. Made of the newest materials, latest sleeves, wide skirts, and stylish all over.

\$1.50; 5 dozen at this price.

Have you ever had a Tea Gown that cost you \$5 or \$6? Look at these and you will admit at once that we are showing as much style for \$1.50 as you have been in the habit of paying \$5.00 for.

\$1.75; the best one.

No blowing, but downright facts about this Wrapper Sale. It begins Saturday, Sept. 12, and lasts one week.
